SEASON, 1935

FORTY years ago, Herbert J. Rumsey started business as a mail order seedsman at Tallong (then Barber's Creek), at first growing improved strains and then including best imported strains and varieties which could not be grown locally. Experiments carried out for some years prior to this had convinced Mr. Rumsey that there was much room for improvement in flowers and vegetables offered generally at that time.

The ideal of quality before price which prompted the founding of this business has been the slogan right through our forty years of trading.

There still is and always shall be room for improvement and each year we carry out more extensive trials to be sure that gardeners who trust us with such an important commodity as seeds only get the very best quality the world produces.

We believe that in hot and humid countries like Australia, seeds hold their germination better in proper warehouses, built for the purpose, than scattered throughout the country in the hands of agents under all manner of conditions of temperature and humidity. Also that for true "seed service," the seller must have had special training and experience. For these reasons, we favour selling direct to growers or seed merchants having proper training and facilities for handling seeds. We have no agents for our seeds in any part of the Commonwealth.

NURSERY CATALOGUE.—We have for a great number of years included plants and bulbs in our annual catalogue. We have now, however, decided to issue a separate nursery price list, which will not be issued annually, but remain effective until cancelled. Those clients wishing to order trees, bulbs or ornamental plants may refer to prices in our 1934 Catalogue or write for special nursery price list, which will be sent post free on request.

Strawberry plants are listed as usual in Annual Catalogue.

● SEEDSMEN AND NURSERYMEN

ADDERTON ROAD, DUNDAS, N.S.W.

Novelties and Specialities

New and Recent Introductions and Varieties of Outstanding Merit

BEAN

Stayley's Brown Beauty

Most outstanding as regards earliness, yield and freedom from disease and we believe it will become popular as an early spring market bean.

Produces long straight pods not quite so broad as Canadian Wonder. Pkt. 6d. (post paid 9d.); lb. 2/- (post paid 3/-).

TOMATO

LOW BRANCH

A recently introduced tomato, somewhat resembling Pritchard in habit of growth, shape and colour of fruit. Second early in maturity, producing heavy crops in some localities. Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-; $\frac{1}{4}$ lb., 15/-.

Marhio or Marvellous (Pink)

This is another selection from crosses made by the late Dr. Pritchard, and we believe it is destined to become very popular in places where a pink fruited tomato is favoured. The fruit are medium sized, firm and fleshy. Second early in maturing and claimed to be resistant to Fusarium Wilt.

True Marhio is a pink fruited variety and may be described as a pink Marglobe.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 11/6.

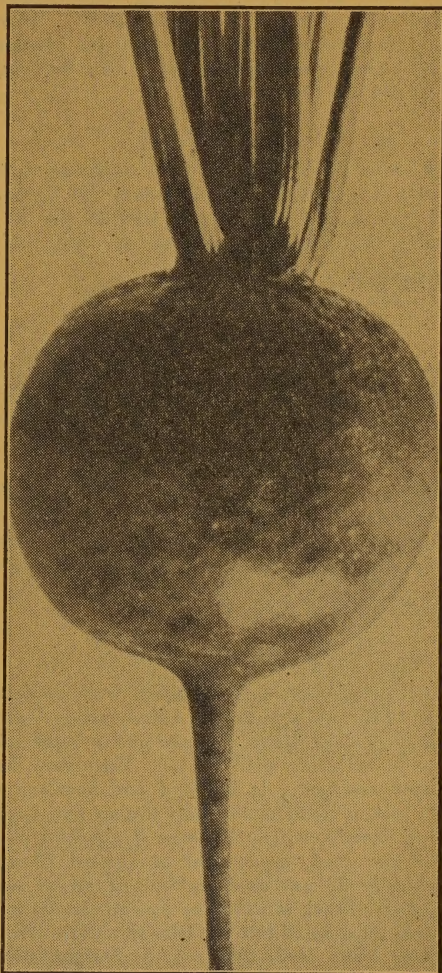

Red Marhio

When first introduced this variety was thought to be the same as Marhio, but our trials disclose that it is a distinct selection. Fruits are medium sized, mostly globe shaped, and have a scarlet skin with a slight pinkish tinge at certain stages of ripeness.

Vigorous plants, heavy croppers, second early in maturing and showing marked resistance to fusarium wilt.

Specially recommended for coastal plantings and for trial in other districts.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; oz., 5/-; $\frac{1}{4}$ lb., 15/-.

BEET—Crimson King

BEET

Crimson King

A new deep crimson fleshed globe shaped beet of exceptional quality. Pkt., 6d.; 1 oz., 1/-; $\frac{1}{4}$ lb., 2/-; lb., 6/-.

SWEET CORN

Gold Coin

An extra early new yellow variety ready for the table a few days ahead of Golden Bantam. Ears 8in. long, plants $5\frac{1}{2}$ to 6ft. tall. Pkt., 6d.; $\frac{1}{4}$ lb., 1/6; lb., 4/6.

CABBAGE

Earliest Forcing Globe

A small extra early cabbage forming perfectly round heads of unusual solidity. Having few outer leaves they may be planted 12 inches apart in the row. Pkt. 9d.; oz., 2/6; 4 oz., 7/6.

King Canute

A very solid ballhead type cabbage suitable for either Autumn, Winter or Spring. Large heads which stand well in the bed after maturing. Pkt. 9d.; oz., 4/-; ¼ lb., 12/-.

GARDEN PEAS

Emperor

A pure line strain of Greenfeast, selected for robust growth and heavy yield. Pkt. 6d. (post paid 9d.); lb., 1/6; freight extra.

Early Market

A new early large podded pea, specially recommended for a quick Spring crop in upland areas or the Southern States. Pkt. 6d. (post paid 9d.); lb., 1/6; freight extra.

POTATO

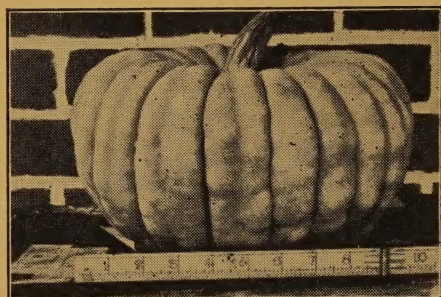

Golden Wonder

A new potato imported by us from England in 1931. Golden colour, kidney shaped with shallow eyes, good cropper and a week later in maturing than Factor. Extremely disease resistant. In England and Scotland it is looked upon as the best eating and cooking variety, mainly because it contains over 27 per cent. dry matter as against 20 per cent to 23 per cent. in most standard varieties. Stock is still very limited, so we can only offer small lots for trial this year. 7lbs., 2/6; 14lbs., 4/3; 28lbs., 8/-. Freight extra.

PUMPKIN

Ideal

A new variety produced by the N.S.W. Department of Agriculture. In shape somewhat resembling the Queensland blue variety. Medium to large pumpkins of excellent quality. The colour of skin is greyish green when mature. Pkt., 9d.; oz., 1/9; ¼ lb., 5/-; lb., 15/-.

PUMPKIN—IDEAL

BROCCOLI

Green Sprouting

Quite a distinct type and much hardier than white flowered kinds. Branching habit, each branch ending in delicious green sprouts. Pkt., 6d.; oz., 2/6; ¼ lb., 7/6.

New Flower Seeds

CHRYSANTHEMUM

Mawii

A new perennial with rich pink single flowers 2 inches across. Ideal for borders or rock-garden. Height, 1 ft. Silvery foliage. Pkt., 1/-.

SWEET PEAS

(Early or Winter Flowering)

MEMORY, MONTEREY, SUCCESS and PEACHBLOW

1/6 pkt. For full descriptions, see page 36.

SHASTA DAISY (*Chrysanthemum Maximum*)

Giant Double White

Large blooms carried on long wiry stems. Varies from double, semi-double to single in various forms of fringed and quilled petals. 2/6 pkt.

CALENDULA—ORANGE SHAGGY

CALENDULA

Orange Shaggy

Entirely distinct. Beautifully fringed, long narrow petals. Flowers large and flat of rich orange colour shading towards the centre. Pkt. 1/-.

Art Shades

Contains a great range of picotees, orange, cream and apricot shades. Pkt. 6d.; ¼ oz., 1/6.

MORNING GLORY

Double-Rose Marie

Produces masses of bright rose pink blooms mostly double and semi double. Annual. Pkt., 6d.

DOUBLE HYBRIDS

NASTURTIUM

Double Hybrids Mixed

Glorious new colours in GIANT DOUBLE SWEET SCENTED blooms up to 3 inches across and ranging from pale primrose through all shades of lemon and gold to shades of scarlet, orange scarlet, rose, and deep velvety crimson, also splashed and mottled shades. The scarlet and orange scarlet shades predominate.

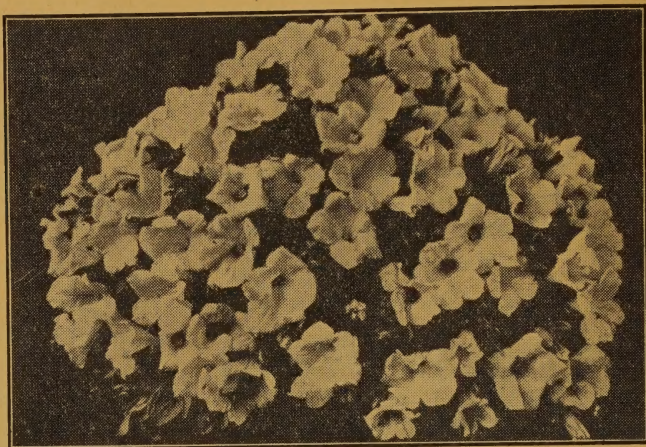

Nasturtiums will grow and bloom in almost any soil but it should not be too rich for the greatest wealth of bloom.

Experience gained during last summer indicates that the new double hybrids are not suitable for Summer blooming in warm districts as very few double blooms are produced under such conditions. We therefore recommend Autumn sowing in coastal and warm districts and they may be sown after frosts in the cooler parts. Pkt., 1/-.

PETUNIA

Pink Gem—A charming new race of dwarf compact petunias. Neat plants 6 ins. high, covered with deep pink flowers.

Pkt., 1/-; 1-lb oz., 6/-.

PETUNIA—PINK GEM

MARIGOLD (Dwarf French)

Monarch Strain Mixed

The ideal type of dwarf french marigold flowers are fully double and compact in varying shades of orange, bronze, yellow and mahogany. Pkt., 6d.; $\frac{1}{4}$ oz., 1/6.

CHORIZANTHE Palmeri

Also known as Turkish Rugging. An easily grown annual for borders and rock gardens, 8 inches high. Forms a dense mat of delicate pink flowers. Pkt., 1/-.

BROWALLIA DEMISSA

A useful bedding plant, carrying freely a fine head of deep sky-blue flowers. Stands hot weather well. 1/- packet.

MATTHIOLA

Oyensis

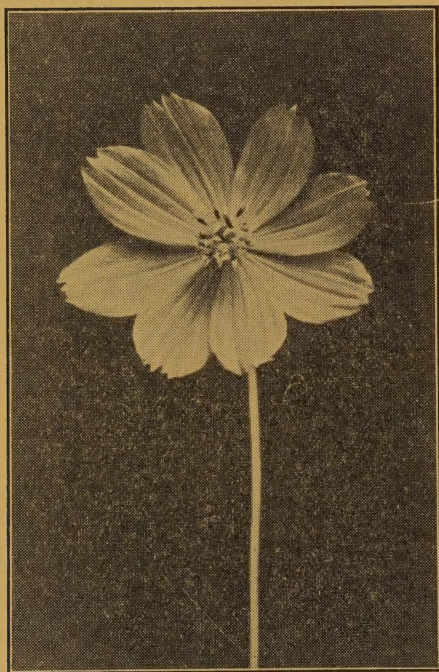

A new dwarf evening scented stock, producing a wealth of pure white blooms. Excellent for bedding or rock gardens. Worth growing for delightful fragrance. Pkt., 1/-.

GODETIA

Tall Double

Double azalea-like flowers on long stems, excellent for cutting.

Carmines—soft pink carmine blotched; Cherry Red; Flesh Pink; Crimson; Mauve; Rosy Morn and Mixed. Pkt., 6d.; $\frac{1}{4}$ oz., 1/6. Packet of each of six separate colours for 2/-.

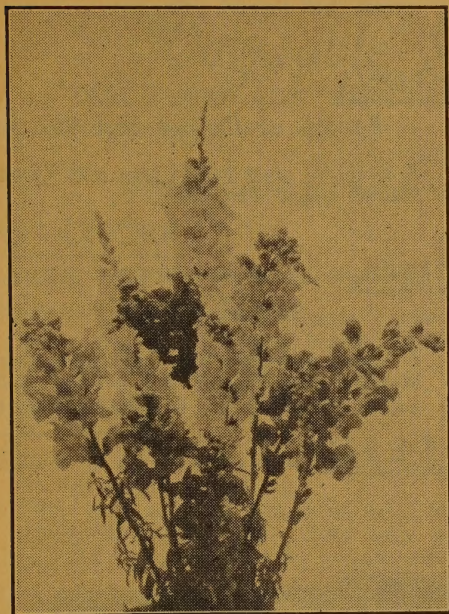

COSMOS—EARLY GOLDEN

COSMOS

Early Golden

An early golden orange cosmos coming into bloom in 3 months from seed. May be sown in January or February in coastal districts for Autumn blooms. Pkt., 1/6.

SNAPDRAGON (*Antirrhinum*)

Giant Rust Resisting Mixed

Antirrhinum rust is spreading rapidly to all parts of the world, causing havoc in gardens. Although not yet reported as having occurred in Australia it is in the interest of growers that we should get in early with resistant strains before it does make its appearance.

This strain was originated by the University of California and shows 75% resistance to rust. Contains a wonderful range of popular colours. Pkt., 1/-.

Majestic (Semi-Tall)

DAWN O'DAY—Large flowers placed compactly on stems. Open a light rose pink changing quickly to a pure apricot, slightly suffused gold towards the centre. Make a charming colour effect when planted in masses in beds or borders. Pkt., 1/-.

ELDORADO—Beautiful golden yellow. Excellent for cutting or garden. Pkt., 1/-.

RED CHIEF—Large sized scintillating deep scarlet crimson blooms. Keeps colour well. Pkt., 1/-.

EVENSONG—Dense shapely spikes of a charming combination of chamois pink apricot and buff. Pkt., 1/-.

ROSELLA—Magnificent spikes of well formed blooms of a beautiful rose shade. Pkt., 1/-.

1 packet of each of the 5 new Majestics for 4/- post paid.

Half Dwarf (Intermediate)

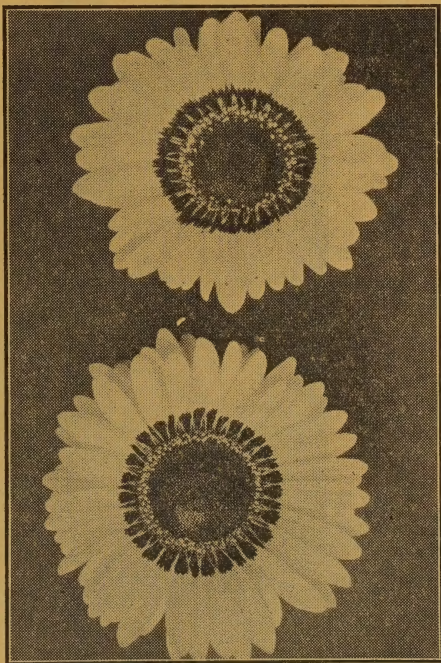

WINTER HELEN—One of the finest new snapdragons introduced for many years. Charming salmon pink and early flowering. Pkt., 1/-.

GAY GORDON—Standard is bronze cerise, lower lip scarlet and gold, throat white. A particularly gay subject for bedding and borders. Pkt., 1/-.

LEMON QUEEN—Large spikes of well formed yellow or primrose flowers makes a wonderful show. Pkt., 1/-.

RUDDY GLOW—Glowing orange scarlet blooms of great size and quality. Pkt., 1/-.

ROYAL PURPLE—Quite an unusual shade of bright purple. Very striking. Pkt., 1/-. 1 packet of each of the 5 new Half Dwarfs for 4/-, post paid.

VENIDIUM FASTUOSUM

VENIDIUM

Fastuosum-Monarch of the Veldt

Large brilliant orange flowers, zoned dark purple at base of ray petals, and having a dark centre. Foliage gray. Free blooming plants, 2 to 3 feet high. Annual. Pkt., 6d.

TAGETES—LITTLE GIANT

TAGETES (Marigold)

Signata Pumila—Little Giant

Truly a wonderful little plant for bedding or borders. Covered with hundreds of golden orange flowers for many weeks.

Pkt., 9d.; $\frac{1}{8}$ oz., 2/6.

PLATYCODEN (Chinese Bell Flower)

Grandiflora Mariesi

Herbaceous perennial thriving in semi-shade. Flowers blue or white, 2-3 inches across; bell shaped. Pkt., 1/-.

VERBENA

Beauty of Oxford Hybrids

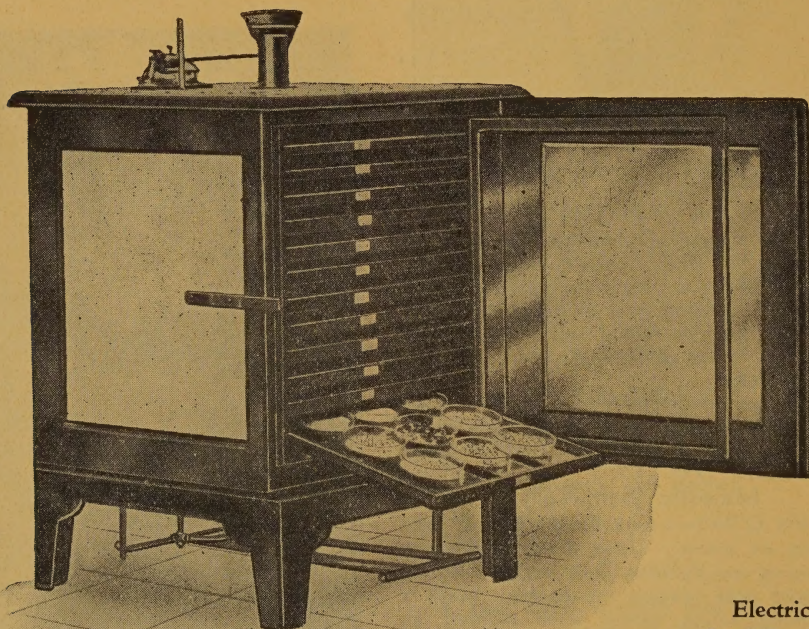

A beautiful giant hybrid rose pink Verbena. Flowers large. Pkt., 1/-.

ZINNIA

Fantasy Mixed

A very graceful type of new Zinnia. Medium sized blooms with prettily quilled petals. Good mixture of colours. Pkt., 1/-.

TESTED SEEDS

Electric
Seed-Testing
Incubator

"Rumseys' Honest Seeds" are tested for germination and vitality under soil conditions and trial grounds are maintained for testing new strains and trueness to type of existing varieties.

The use of modern equipment is a further protection for users of "Rumseys' Honest Seeds." We can test quickly and effectively all seed as it comes into stock, and at various times throughout the year.

Although at time of sale our seeds comply fully with the provisions of the Agricultural Seeds Act, 1921 (N.S.W.), there are certain things beyond our control which may affect growth. Therefore, for our protection against unscrupulous persons, all goods are sold subject to the following conditions:

CONDITIONS OF SALE.—We believe that all Seeds, Bulbs, and Roots sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this, we give no understanding that such Seeds, Bulbs, or Roots will correspond with the description under which they are sold, and we make all sales subject to this condition. We further give no warranty, express or implied, as to their growth, description, quality, or productiveness, and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms they are at once to be returned to us.

HERBERT J. RUMSEY & SONS LTD.

Vegetable Seeds and Roots

ALL SEEDS ARE POST PAID UNLESS QUOTED OTHERWISE.

½lb. lots supplied at 1lb. rate; ½oz. at 1oz. rates (subject to minimum charge of 1/- per item) unless quoted otherwise.

Reduced Prices for larger quantities than listed. Ask for quote.

ARTICHOKE

LARGE GREEN GLOBE.—Pkt., 6d.

JERUSALEM.—Not generally grown from seeds. Rhizomes ready June to August. 3d. lb; freight extra.

ASPARAGUS

MARY WASHINGTON.—● Has proved to be nearly rust free.

Pkt., 6d.; oz., 1/-; ½lb., 2/6; lb., 1/6.

Roots available June, July and August 25 for 3/6; 10/- 100; freight extra.

LONG AND HALF LONG BEET

Long beet require deep soils, cool climate and autumn planting.

LONG SMOOTH BLOOD RED.—Roots 12 inches, very dark flesh.

Pkt., 6d.; oz., 1/-; ½lb., 2/-; lb., 6/-.

OBELISK (Rumsey's Special Strain)—●

Half Long, good colour and flavour. Fine for slicing. Pkt., 6d.; oz., 1/-; ½lb., 2/-; lb., 6/-.

SILVER or SPINACH BEET

Silver beet, from its continuous cropping habit, has taken the place of spinach.

LUCULLUS.—Large ruffled leaves, broad mid-rib. Pkt., 6d.; oz., 1/-; ½lb., 1/6; lb., 4/-.

FORDHOOK GIANT.—● Rich blue-green, crinkled leaves, up to 10 inches in width and 2½ feet in height. Stems pearly white, 2½ inches wide, thick and succulent. Pkt., 6d.; oz., 1/-; ½lb., 3/6; lb., 7/6.

TURNIP ROOTED BEET

Turnip-rooted beet may be sown in rows or transplanted almost any month.

CRIMSON KING.—(See Novelty Pages).

EARLY WONDER ● (Rapid Red)—Fine quality beet for early market or home garden. Pkt., 6d.; oz., 1/-; ½lb., 1/9; lb., 5/-; 3 lbs., 13/6.

CRIMSON GLOBE.—Sweet and tender. Pkt., 6d.; oz., 1/-; ½lb., 1/9; lb., 5/-;

IMPROVED DETROIT DARK RED.—● A pure line strain of this remarkable market variety. Fine dark colour.

Pkt., 6d.; oz., 1/-; ½lb., 1/9; lb., 5/-; 3 lbs., 13/6.

CROSBY'S EGYPTIAN.● Popular home garden and market variety. Fine quality red fleshed beetroot, growing to about 3 inches diameter. Pkt., 6d.; oz., 1/-; ½lb., 1/9; lb., 5/-.

FORDHOOK GIANT

When you see the bullseye opposite a variety, it indicates that we consider the variety extra good.

BEANS

FREIGHT IS EXTRA on all beans. For rates, see Page 45.

SPECIAL QUOTES FOR BUSHEL LOTS

BUSH FRENCH BEANS

BROWN BEAUTY—(See Novelty Pages)

BURPEE'S STRINGLESS GREEN POD

—● Tender, straight, fleshy pods, two weeks earlier than Canadians. The best home garden dwarf french.

Pkt., 6d. (post paid, 9d.); 1 lb., 1/6; 5 lbs., 7/-; 10 lbs., 13/6; freight extra.

CANADIAN WONDER.—Popular market bean, very hardy. Pkt., 6d. (post paid, 9d.); 1 lb., 1/6; 5 lbs., 6/9; freight extra.

BOUNTIFUL.—A very good early bean. Pods brittle and stringless. One of the best all-round beans in cultivation. Pkt., 6d. (post paid, 9d.); 1 lb., 2/-; 5 lbs., 8/9; freight extra.

FELTHAM'S PROLIFIC.—A hardy variety which has become popular of recent years, giving good crops when other varieties have failed. Pkt., 6d. (post paid, 9d.); 1 lb., 1/6; 5 lbs., 6/9; freight extra.

TWEED WONDER—● In many districts during the last two seasons our stock seed of Tweed Wonder was the only bean that produced a commercial crop. In some localities beans died out all around it, but Tweed Wonder gave a crop. The seed has been saved from crops free from Bacterial blight. Pkt., 6d. (post paid, 9d.); 1 lb., 2/-; 5 lbs., 8/9; freight extra.

IMPROVED WHITE NAVY.—The best of all beans for baked bean industry. Resistant to rust and black spot. Pkt., 6d. (post paid, 9d.); 1 lb., 2/9; freight extra.

BROAD BEANS

Sow in autumn and early winter.

Pkt., 6d. (post paid, 9d.); 1 lb., 1/-; 5 lbs., 4/3; freight extra.

EARLY LONG POD.—Best early.

BROAD WINDSOR.—Good cropper.

BUSH BUTTER BEANS

Pkt., 6d. (post paid, 9d.); 1 lb., 1/9; freight extra.

RUSTPROOF GOLDEN WAX.—Stringless, handsome, prolific.

STARTLER WAX.—Crops heavily, bearing large, round, fleshy, stringless beans of fine flavour.

BRITTLE WAX.—● Best of all the wax or butter beans. Beans round and fleshy, stringless and tender. The beans retain their yellow colour when cooked, super-fine flavour. Crop failed.

CLIMBING LIMA BEAN

BURPEES GIANT PODDED—● Pkt., 6d. (post paid, 9d.); 1 lb., 2/6; freight extra. Early, prolific, handsome, of delicious flavour.

PERENNIAL CLIMBING BEAN

TONGAN BEAN.—Pkt., 6d. Black seeds; runs 20 to 30 feet, broad, tender pods, stringless. Perennial only in coastal districts.

CLIMBING FRENCH BEANS

Pkt., 6d. (post paid, 9d.); 1 lb., 2/-; 5 lbs., 8/9; freight extra.

RUMSEY'S GIANT ROUND POD—● Known also as Kentucky Wonder. Free - growing, prolific, deliciously flavoured.

EPICURE—● A flat bean, enormous cropper, and delicious cooked.

CLIMBING STRINGLESS GREEN-POD

—● Uniformly straight pods, 6 to 8 inches in length, rich green, and very meaty, entirely stringless. Sometimes called White Seeded Kentucky Wonder.

SCARLET RUNNER (Improved).—Bears enormous pods, 12 to 18 inches long.

YARD LONG OR SNAKE.—Fleshy beans 18 to 20 inches long.

Pkt., 6d.; 1 lb., 2/- Post paid.

CLIMBING BUTTER or WAX

GOLDEN CLUSTER—● Crop failed.

BUSH LIMA BEANS

FORDHOOK BUSH—● Beans are rather thicker and larger than any other sort; great croppers.

Pkt., 6d. (post paid, 9d.); 1 lb., 2/-; 5 lbs., 8/9; freight extra.

BORECOLE or KALE

Pkt., 6d. oz., 1/3; 1lb., 3/6.

SCOTCH KALE.—For table use.

THOUSAND-HEADED.—Winter cattle feed.

MARROW STEM (Chou Mollier).—Used for poultry greens.

BROCCOLI

Pkt., 6d.; oz., 10/-.

PERENNIAL NINE STAR.—Although this has been listed for several years we consider it worthy of special mention. For tablelands and western slopes it is most productive and provides an abundance of vegetables for the home, or a continuous supply of greens for poultry.

EARLY WHITE.—Nearly like cauliflower.

LATE WHITE.—Extra fine white heads.

BRUSSELS SPROUTS

RUMSEY'S GIANT PROLIFIC.—A fine vegetable for the cooler districts. Sow seed in early autumn or late summer.

Pkt., 6d.; oz., 1/6; 1lb., 4/6; lb., 12/6.

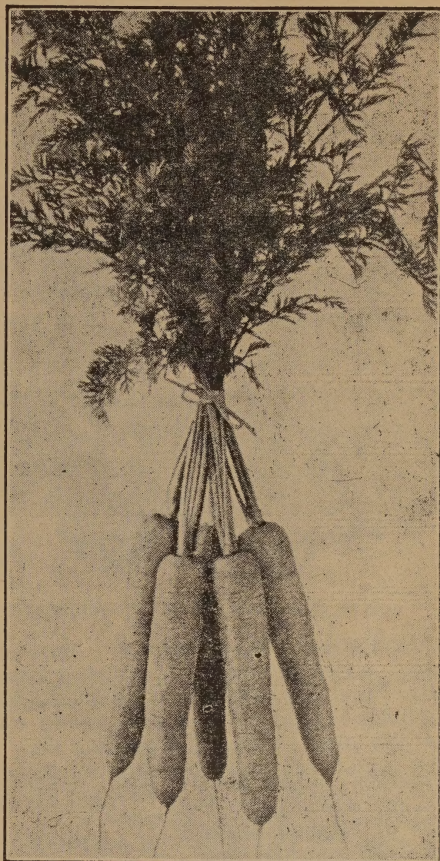

TABLE CARROTS

LONG BUNCHING—A longer and better coloured bunching carrot for market purposes. Roots are 9 to 10 inches long under good conditions, and up to 1½ inches diameter. When mature almost cylindrical and well stumped. Necks are small, but leaves tough. Can be pulled before reaching maturity and will stand in the ground when mature for some months without getting too large.

Pkt., 6d.; oz., 1/-; 4oz., 2/-; lb., 7/6.

EARLY NANTES—● (True French strain). The most popular of all the carrots on our list. It is a handsome half-long variety, with a stump root and a fine tap-root. The roots average about six inches in length, and 1½ inches in thickness. The colour is bright orange outside and a rich orange-red in the centre.

Pkt., 6d.; oz., 1/-; 1lb., 2/-; lb., 6/-.

CARROT LONG BUNCHING

ST. VALERY—● An intermediate carrot with long tapered roots, quite smooth and regular in growth. Two to three inches in diameter at the top and to 10 inches in length. The flesh is a deep rich orange-red, with a soft centre of rich orange-yellow.

Pkt., 6d.; oz., 1/-; 1lb., 1/9; lb., 5/-;

RED CORED CHANTENAY—● A new carrot of extra fine quality of rich orange colour, with core almost the same colour as the flesh and of equal quality, stump rooted, uniform and delicious.

Pkt., 6d.; oz., 1/-; 1lb., 2/-; lb., 6/-.

WHITE INTERMEDIATE.—Best white carrot for table use, good flavour.

Pkt., 6d.; oz., 1/-; 1lb., 1/9; lb., 5/-.

EARLY SHORTHORN.—A fine variety for quick growth and for shallow soils, roots up to 3 inches in length and 1½ inches in diameter, of a rich deep orange colour and sweet flavour.

Pkt., 6d.; oz., 1/-; 1lb., 2/-; lb., 6/-.

Cabbages

NEW CABBAGES—(See Novelty Pages).

ALLHEAD EARLY

COPENHAGEN MARKET—● Special stock strain. A quick maturing cabbage for a catch crop. Earliest of round headed cabbages. It grows up to 8lb. Pkt., 6d.; oz., 2/-; ½lb., 6/-.

ALLHEAD EARLY—● The earliest large market cabbage. The large heads of Allhead Early grow very quickly, and form compact cabbages, free from spreading leaves. The deep flat heads are very solid and it has proved to be one of the very best to grow for market. Seed can be sown both in autumn and spring, in fact, at almost any time of the year. It stands the heat of early summer much better than almost any other variety. We have both Danish and American-grown strains. Pkt., 6d.; oz., 1/9; 4 oz., 5/-; lb., 15/-.

GOLDEN ACRE—● An extra early small round headed cabbage. Extra fine quality and solid. Pkt., 6d.; oz., 1/9; ½lb., 5/-; lb., 15/-.

ENKHUISEN GLORY—A popular early cabbage with round solid head. Carries well. Pkt., 6d.; oz., 1/6; ½lb., 4/6; lb., 12/6.

EARLY JERSEY WAKEFIELD—● Special stock strain. The best and sweetest small early cabbage for home use. Pkt., 6d.; oz., 1/9; ½lb., 5/-.

SHORT-STEM DRUMHEAD (Early)—● Grows close to the ground, and makes very heavy heads. A good autumn cabbage. Pkt., 6d.; oz., 1/9; ½lb., 5/-; lb., 15/-.

SUCCESSION—● Most market growers include Succession as one of their varieties, as it is one of the most dependable to head and makes very uniform heads. We take the greatest care to have the best strains of seed obtainable. We have both Danish and American-grown strains. Pkt., 6d.; oz., 1/9; 4oz., 5/-; lb., 15/-.

COPENHAGEN MARKET

CABBAGES (cont.)

SUREHEAD

SUREHEAD—● Having so few outer leaves, it can be grown closely where the soil is rich enough, and will give a very great weight of cabbages per acre. Large round flattened, extra firm. Keeps well. Pkt., 6d.; oz., 2/-; $\frac{1}{2}$ lb., 6/-; lb., 15/-.

WORLD-BEATER OR AUTUMN KING

Very large, stands late summer heat, and matures early winter.

Pkt., 6d.; oz., 2/-; $\frac{1}{2}$ lb., 6/-.

PE TSAI

CHINESE CABBAGE

When sown in February or March and in the cool climates in June, the plants develop quickly, forming large, tightly folded heads of tender leaves, beautifully blanched in the heart. Chinese cabbage is used sliced raw as a salad like lettuce, or is delicious when boiled.

PE TSAI.—The variety best known to Europeans, with large leaves of a light green colour, tender stalks and heart. Specially selected stock.

Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-.

WONG BOK.—This variety has been grown to a considerable extent recently for poultry greens. Broader and shorter heads than Pe Tsai. The leaves are tightly folded and well blanched, the ribs juicy and agreeably pungent. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/-; lb., 12/-.

SAVOY CABBAGE

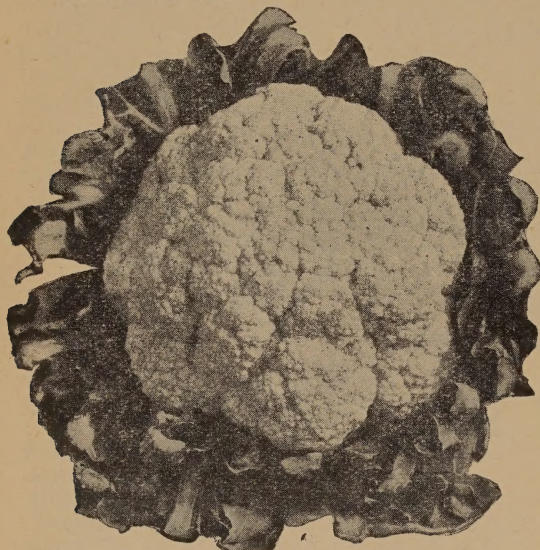

PERFECTION SAVOY.—Good for winter growth in the cold districts; much improved by good frosts after maturing. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/3; lb., 12/6.

RED CABBAGE

MAMMOTH ROCK RED—● Solid, dark red heads, good for pickles, or for cooking. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/6; lb., 12/6.

CAULIFLOWERS

Cauliflower seeds should be sown from December to March in the warmer parts and January, February, August and September in the cooler districts. Manure heavily before planting out; irrigate well or apply water before they get too dry. Extra early varieties are not recommended for the County of Cumberland.

Arlington

EARLY CAULIFLOWERS

ARLINGTON—● An early variety of exceptional quality. We have seen 2,000 plants, from which there were not six rogues. Every head perfect. The above Arlington photograph was taken from a head typical of them all. Pkt., 6d.; oz., 7/6; 4oz., 22/6.

FORDHOOK—Remarkable for its earliness, making a firm solid head 6 to 9 inches in diameter in 85 days after sowing the seed. Noted for heading when many other varieties fail. The plants are dwarf and compact, the stem is short. Pkts., 1/-; oz., 15/-.

BURPEEANA—This cauliflower is not quite so early as Fordhook, but the heads are so uniformly shaped and formed as to be remarkable. The foliage is full and of a fine dark green, and the inner leaves curl over the head and protect it against the weather. Burpeeana has a beautiful white curd, smooth and free from small leaf-

lets, between the sections, and very attractive on the table when cooked. Pkt., 1/-; 4oz., 5/-; oz., 15/-.

BURPEE'S BEST EARLY—Is a splendid variety both for market and the home garden. It is a 3½ month cauliflower, and sowings should be made in time to plant out not later than March or April for autumn crops, and August in the mountain and cooler parts. Pkt., 6d.; 4oz., 3/6; oz., 10/-; 1lb., 30/-.

WHITE QUEEN OR EARLY ERFURT—● A very early dwarf; reliable header. Extra select strain. Pkt., 6d.; oz., 7/6; 1lb., 22/6.

DRY WEATHER CAULIFLOWER—● This variety produces large pure white solid heads about a week later than the extra early varieties, such as Best Early. Its drought resisting qualities make it a very fine variety for Australian conditions, and many gardeners who do not as a rule succeed with cauliflowers will find it something worth while. Pkt., 6d.; 4oz., 3/6; oz., 10/6.

MID-SEASON CAULIFLOWER

"EARLY" GREENLEAF (or Green Glazed).—This cauliflower is quite distinct, having dark green leaves with a shiny surface. It is sometimes called "aphis proof" from its resistance to those pests. Pkt., 6d.; oz., 8/-.

VEITCH'S AUTUMN GIANT—● The standard main crop cauliflower takes about 5 months to mature; our strain is noted for its reliability. Special stock strain selected seed. Pkt., 6d.; oz., 3/-; 1lb., 8/6; 1b., 25/-.

BORONIA GIANT—● This is one of the Broccoli-Cauliflower cross-breeds that has proved so suitable for the coastal districts and warmer parts of N.S.W. The Chinese gardeners for many years held a monopoly of the seed and each grew his own supply and only sufficient for his own needs. We have, however, after a long series of experiments, succeeded in growing limited supplies for our customers. Boronia Giant, planted out about the end of January or early February, will produce large snow-white heads about June, and in suitable localities, later planting will give equal results in 4 to 4½ months from planting out. Pkt., 6d.; 4oz., 2/6; oz., 7/6; 1lb., 22/6.

CAULIFLOWER (Contd.)

PHENOMENAL MAINCROP—● One of the best for districts west of the dividing range. Matures in six to seven months, coming into head in early spring from autumn sowing. Pkt., 6d.; oz., 5/-; $\frac{1}{2}$ lb., 15/-.

LATE CAULIFLOWERS

LATE METROPOLE—A very late, large and very white cauliflower; vigorous and hardy. The head is well protected by the inner leaves. The heads grow to 18 or 20 lb. in weight. 7 months. Pkt., 6d.; oz., 5/-; $\frac{1}{2}$ lb., 15/-.

CELERY

GOLDEN PHENOMENAL—Heavy, compact and full-hearted; intermediate height. A top price market variety. Pkt., 6d.; oz., 3/-; $\frac{1}{2}$ lb., 10/6.

WHITE PLUME—● The earliest and most easily blanched of the celeries, of delicious nutty flavor. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/6.

FORDHOOK—● A new hardy variety of outstanding merit. Of dwarf type, the stalks smooth and very thick. The colour snow white, the heart tinged with yellow. Flavour, nutty and crisp. Pkt., 6d.; $\frac{1}{2}$ oz., 1/-; oz., 4/6. (See illustration.

GIANT PASCAL—● A late variety, producing tall, thick stalks. Blanches to an attractive light yellow. Tasty and crisp. Pkt., 6d.; oz., 1/9; $\frac{1}{2}$ lb., 5/-.

CELERIAC—Turnip rooted, used for soups. Pkt., 6d.; oz., 3/-.

SOUP CELERY—Non - germinating. For flavouring only. $\frac{1}{2}$ lb., 1/-; lb., 3/-.

CRESS

TRIPLE CURLED or LAND CRESS—This is used as a salad with mustard. Pkt., 6d.; oz., 1/-.

WATER—Grows well in running water. Pkt., 6d.

COLLARDS

GEORGIA—Delicious greens taking the place of spinach and cabbage in hot climates. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-; lb., 9/-.

CAPE GOOSEBERRY

GOLDEN NUGGET—This is the result of over twenty years selection. An enormous yellow fruit bursting out of the husk. It sometimes reaches two inches in diameter.

The fruit makes a splendid jam or preserve, either by itself or with Jelly Melon. The plants are enormously prolific. Pkt., 6d.; $\frac{1}{2}$ oz., 4/-; oz., 7/6; $\frac{1}{2}$ lb., 22/6.

COMMON CAPE GOOSEBERRY—(Physalis edulis). This variety is a biennial, and in mild climates produces its best crop of fruit during the second season. Pkt., 6d.; oz., 4/6.

HUSK TOMATO—(Physalis pubescens). Quite different from either of the above. The vines are trailers, and it is very prolific. This is the best flavoured variety for eating raw. The berry is small and sweet. Pkt., 6d.; oz., 4/6.

DASHEEN

Tropical plants for wet places. Yield heavy crops of tubers, which are cooked like potatoes. Roots in winter. 1/6 each, post paid.

FORDHOOK

POP CORN

Pkt., 6d.; $\frac{1}{2}$ lb., 1/-; lb., 3/6. Add 6d. lb. to Interstate orders.

Popping Pop Corns is quite an interesting pastime for Winter evenings in front of the fire. Place a handful of the corn in a dry frying-pan covered with an enamel plate. Rotate pan to keep corn moving until it pops.

WHITE RICE—● The grains are pearly white, pointed, and not unlike rice grains in shape.

QUEEN'S GOLDEN.—Height of 6 feet, large ears, pops white.

SWEET CORN

Pkt., 6d.; $\frac{1}{2}$ lb., 1/-; lb., 3/-. Add 6d. lb. for postage on Interstate orders. Every garden should have a row of this delicious vegetable. Sown every two weeks in spring and early summer.

GOLD COIN.—(See Novelty pages.)

THE BURPEE.—Rich and sweet heavy cropper larger and earlier than our famous Golden Bantam.

GOLDEN BANTAM—● Early, delicious, prolific; golden yellow.

WHITE EVERGREEN.—Excellent main-crop variety for home and market. Earlier and larger than Stowell's Evergreen. Sweet and tasty.

COUNTRY GENTLEMAN.—Large handsome ears.

CUCUMBER

GREEN APPLE.—A selection from the Crystal Apple variety, having a green tinged skin. Pkt., 6d.; oz., 2/6.

EARLY FORTUNE.—● Early, disease resistant, and immensely productive. Fruits grow up to 9in. in length, and set freely. The colour of the skin is a rich, dark green and the flesh is pure white, firm and crisp; delicious flavour. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/-; lb., 12/-.

COMMERCIAL OR FORDHOOK

WHITE SPINE—● A perfectly shaped cucumber of medium length and large diameter, quite smooth, and remaining green after being picked; very productive. This cucumber has by far the largest sale on the markets. Pkt., 6d.; oz., 1/3; $\frac{1}{2}$ lb., 3/6; lb., 10/6.

FORDHOOK FAMOUS.—An extra long variety of White Spine; 12 to 17 inches in length.

Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/6; lb., 13/6.

APPLE SHAPED—● The apple shaped cucumber is at its best when the outer skin is almost white, before it starts to turn yellow. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/6; lb., 10/6.

CRYSTAL APPLE.—The skin is white without any trace of brown or yellow. Though this cucumber looks fine at any stage it should only be marketed while quite young. Pkt., 6d.; oz., 2/6; $\frac{1}{2}$ lb., 7/6.

WHITE EARLY—● A new, long, white cucumber, growing 10 to 12in. long, and 3in. in diameter. Pale green while young, turning to a porcelain white. Pkt., 6d.; oz., 2/6.

BOSTON PICKLING—● Best variety to grow for commercial "gherkins." Pick when $1\frac{1}{2}$ to 2 inches long for best prices. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-; lb., 10/-.

AFRICAN HORNED—● Unique, very late, enormously prolific. Fruit while young may be eaten freely as apples; when ripe, with a spoon like passion fruit. Pkt., 6d.; oz., 2/6.

GHERKIN.—True West Indian Burr Gherkin (*Cucumis Anguria*). Used for pickling whole. This is not the commercial gherkin as sold in Australia. Pkt., 6d.; oz., 1/6.

LONG GREEN PRICKLY.—An old favourite. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/6.

HEINZ PICKLING.—Another very popular pickling variety. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-; lb., 10/-.

HERBS

Pkt., 6d.

PARSLEY.—Extra dark moss curled. Oz., 1/-; $\frac{1}{2}$ lb., 1/6.

SAGE.—Best broad leaved. Oz., 1/6.

THYME.—Best green-leaved. Oz., 3/-.

MARJORAM.—Sweet or knotted. Oz., 3/-.

Pot. Pkt., 6d.

THYME, SAGE and MAJORAM, MIXED Pkt., 6d.; oz., 2/-.

OTHER HERBS.—The following can be supplied in 6d. packets only—Anise, Balm, Basil, Borage, Caraway, Coriander, Dill, Hyssop, Lavender, Rue, and Savory.

PLANTS of Thyme, Parsley, Sage, Marjoram and Mint, 6d. each, post paid.

EGG PLANT

Pkt., 6d.; oz., 4/-.

NEW YORK IMPROVED LARGE

PURPLE—● A fine large variety.

ENDIVE

GREEN CURLED.—When well blanched, makes an improvement on lettuce. Pkt., 6d.; oz., 1/-.

KOHL-RABI

Pkt., 6d.; oz., 1/6; 1lb., 1/3; lb., 4/6.

LARGE PURPLE.—A fine, tender variety.

EARLY WHITE SHORT TOP.—Handsome variety. Medium size. Fine quality.

LEEK

MUSSELBURGH—● A well-known, good and hardy sort. Pkt., 6d.; oz., 1/-; 1lb., 3/6.

MUSTARD

This is usually grown with cress. Pkt., 6d.; 1lb., 1/-; lb., 2/6.

WHITE.—The old English variety; seed used for making the well-known condiment.

FORDHOOK FANCY—● The most beautifully curled and crested leaves; fine for garnishing.

MUSHROOM SPAWN

These may be planted in the open garden in autumn and winter, or at any time in a cave or dark place where the temperature ranges between 50 and 70 degrees.

VIRGIN SPAWN.—Locally produced spawn of finest quality. Very reliable. We can supply three varieties, white, brown, and cream. Pkts. of about 1 pint with full directions on each pkt., 2/6; postage 6d. extra.

LETTUCE

BRITTLE ICE.—A fine extra crisp variety, quick growth.

Pkt., 6d.; oz., 1/6; 1lb., 4/6; lb., 12/6.

CALIFORNIA CREAM BUTTER.—The largest of the butter lettuces. Best in Winter. Pkt., 6d.; oz., 1/-; 1lb., 3/-.

ICEBERG.—Handsome curly leaves, very solid. Good Summer lettuce. Pkt., 6d.; oz., 1/-; 1lb., 3/-; lb., 10/-.

DRUMHEAD.—The old favourite for Winter. Pkt., 6d.; oz., 1/-; 1lb., 3/-; lb., 10/-.

PARIS WHITE COS.—The Cos lettuces are quite distinct; they require tying up to blanch the centre leaves. For Winter use. Pkt., 6d.; oz., 1/-.

MIGNONETTE.—A crisp curly, small brown lettuce that succeeds in Fiji, and very hot climates.

Pkt., 6d.; oz., 1/6; 1lb., 5/-; lb., 15/-.

SPECIAL STRAINS OF NEW YORK.

Growers of lettuce for market should try our different strains and adopt for each season the one that gives them the best results. The Imperial strains are resistant to mildew and brown blight.

IMPERIAL "D".—Stands more frost than others. Pkt., 6d.; oz., 1/9; 1lb., 5/-; lb., 15/-.

IMPERIAL "C".—A good strain for winter and spring sowing. Pkt., 6d.; oz., 1/9; 1lb., 5/-; lb., 15/-.

IMPERIAL "F"—● The most recent and best of New York special strains, combines the qualities of brown blight resistance with resistance to tip burn. Pkt., 6d.; oz., 1/6; 1lb., 4/6; lb., 12/6.

WONDERFUL or NEW YORK—● Select strain. The hardiest and largest of head lettuces; rich dark green; heads stand hot weather, and head well in Winter. Pkt., 6d.; oz., 1/-; 1lb., 3/-; lb., 10/-.

NEW YORK

WATERMELONS

Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 2/-; lb., 6/-; except where stated.

PRIDE OF MUSCATINE—A new wilt-resisting strain of the popular Kleckley's Sweets. Having slightly tougher rind, it is a better shipping melon. Recommended for growers in commercial areas, where wilt is prevalent. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-; lb., 9/-.

IOWA BELLE—New wilt-resisting melon. As a result of the great losses to watermelon growers from fungous wilts some selections have been made from resistant varieties, and of these Iowa Belle has proved in trials made under the auspices of our Department of Agriculture the best suited to our conditions. Iowa Belle is an early, medium to large oval melon, with a mottled dark and light green skin. The rind is tough enough for carrying. The flesh is solid, crisp and of good flavour, rather hard. Pkt., 6d.; oz., $\frac{1}{6}$; $\frac{1}{2}$ lb., 5/-; lb., 15/-.

IOWA BELLE-ROUND—A round-shaped selection from above. Main-crop wilt-resisting. Pkt., 6d.; oz., $\frac{1}{9}$; $\frac{1}{2}$ lb., 5/-; lb., 15/-.

BABY DELIGHT—Just big enough for one; 3 to 6 pounds; beautifully sweet. Pkt., 6d.; oz., $\frac{1}{6}$; $\frac{1}{2}$ lb., $\frac{4}{9}$; lb., 13/-.

CHILIAN BLACK SEEDED—The black seeded melons sell better in slices, and when cut. Medium sized melon, flesh bright red and of delicious quality. Seeds should be soaked before sowing.

KLONDYKE—Good home garden and local sale variety. Oval shape. Flesh brittle and sweet. Pkt., 6d.; oz., $\frac{1}{6}$; $\frac{1}{2}$ lb., $\frac{4}{6}$.

FORDHOOK EARLY—A good early melon for some districts, especially the cooler regions. Growers are advised to try it in a small way first to see if suitable to their locality before sowing a large area. Produces melons about 20 lbs. weight, oval shaped. Carries well. Matures in 85 days under proper conditions.

HALBERT HONEY—The melons are large, sweet and tasty, melting in the mouth like honey, and leaving no fibre. Second early.

STONE MOUNTAIN—A new variety of merit. Round and slightly ribbed. The smooth skin is light green and flesh deep crimson. Average weight, 45lb.

KLECKLEY'S SWEETS IMPROVED OR MARKET WONDER—An excellent market melon, having dark green skin and rich red flesh. Large size, oblong, and of good eating quality.

SUNNYBROOK—An excellent main-crop market melon. Oblong, greyish green fruits, up to 30 or 40 lbs. each. Fine-grained, sweet and tasty.

TOM WATSON—A fine quality melon with tough skin that enables it to be shipped to distant markets. Large melons 10 to 24 inches in length and 10 to 12 inches in diameter, up to 50 or 60lb. in weight. Rind dark green.

KLECKLEY SWEETS—Delicious; another home garden melon.

ICE CREAM or PEERLESS—The very name is cooling. Large and prolific.

IRISH GRAY—A market garden melon, with light green rind, which is very tough. The red flesh is of fine melting flavour.

FLORIDA FAVOURITE, SUGARSTICK, SHAKER BLUE also stocked.

ROCK MELONS

Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-; except where priced.

GREEN FLESHED VARIETIES

HONEY DEW—A new Hybrid Cassaba of delicious flavour; fine grained and melting; keeps for months.

MONTREAL NUTMEG—Thick flesh, light green, flavour simply delicious. Fruits $6\frac{1}{2}$ inches diameter and very heavy—from 11 to 22 lb.

NETTED GEM or ROCKY FORD—This is the most popular small variety of Rock Melon for packing in cases for market as well as a good home garden type. The skin is green, turning to grey as it is ripe for market. Very prolific.

HACKENSACK—An old favourite, good flavour, hardy and prolific.

SALMON FLESHED VARIETIES

HONEY ROCK—(See Novelties, page 6.)

HEARTS OF GOLD—A main crop market melon, about 5 by 6 inches, weighing up to 2lb., flesh ripening close to rind.

POLLOCK-10-25—An early melon of the solid netted type. A splendid keeper, carries well—fine quality. Stem drops off when ripe.

SPICY CANTELOUPE—Fine large melons of exquisite flavour; stringless. Prolific and of vigorous growth. Pkt., 6d.; oz., $\frac{1}{6}$; $\frac{1}{2}$ lb., 5/-.

ROCK MELONS (cont.).

HALES BEST.—One of the earliest of large melons to mature. Oval in shape, slightly ribbed and well netted.

SYDNEY MARKET.—Fruit of medium size, with a fine heavy netting, and fairly distinct ribs. Averages about 5lb. in weight. The flesh is bright salmon pink, and of excellent flavour.

FORDHOOK.—A most delicious variety for market and home use. Round, flat, well ribbed and heavily netted; the skin is thin.

CALIFORNIAN CREAM.—Very popular for shipping to Sydney markets late in the summer and autumn. Is a hybrid cassaba or Persian type. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/6.

GOLDEN BEAUTY.—Fine quality, said to look like a plum pudding tied in a bag; yellow flesh, and of fine flavour. One of the cassaba type melons, keeping well late into the season.

PRESERVING MELONS

Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 2/6.

JELLY MELON.—This melon is noted for cooking to a jelly instead of in hard pieces.

RED SEEDED CITRON.—A very popular red-seeded variety.

COLORADO CITRON.—An immense round melon with firm, white flesh.

SNOW MELON.—The seed is contained in the central cavity like a vegetable marrow, making it very easy to prepare for jam, for which it is very fine. Pkt., 6d.; oz., 1/9.

ONIONS

SWEET SPANISH VALENCIA.—Grows to a very large size perfectly globe shaped. Skin light yellow, flesh pure white, crisp and tasty. Small tops. Carries well to distant markets. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/6; lb., 12/6.

PRIZETAKER.—This onion has done well in all parts of Australia, and in very different classes of soil; for transplanting it is one of the best. It is a very large onion, often going to 4lb. in weight, and frequently measures over 4 inches in diameter. The skin is a beautiful golden brown, and the flesh very white, solid, crisp, juicy and mild. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/6; lb., 12/6.

AUSTRALIAN BROWN.—An American strain of our Early Brown Globe. A splendid keeping sort. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/-; lb., 12/-.

BROWN SPANISH.—The standard keeping onion. Hard to beat for general market purposes, select strain. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 2/6; lb., 8/-.

WHITE QUEEN.—A very early white onion, good for home or early market. Small, pure white and flat. Not a good keeper. Pkt., 6d.; oz., 1/9; $\frac{1}{2}$ lb., 5/-; lb., 15/-.

WHITE PORTUGAL or SILVERSKIN.—The well-known white pickling onion. Medium size, flat and pure white. Pkt., 6d.; oz., 1/9; $\frac{1}{2}$ lb., 5/-; lb., 15/-.

EARLY BARBETTA.—Special strain. one of the best early white onions for early market. Pkt., 6d.; oz., 1/9; $\frac{1}{2}$ lb., 5/-; lb., 15/-.

HUNTER RIVER EARLY BROWN.—The best local strain of early brown onion. The extra cost of this seed is well worth while. Price, Pkt., 6d.; oz., 3/-; $\frac{1}{2}$ lb., 9/-; lb., 27/6.

HUNTER RIVER WHITE GLOBE.—A select strain of this early variety for commercial crops. Crop failed.

ODOURLESS.—A recently introduced variety of the type of Giant Rocca. A mid-season variety, producing large bulbs suitable for eating raw. Pkt., 6d.; oz., 3/-; $\frac{1}{2}$ lb., 10/-; lb., 30/-.

SOUTHPORT WHITE GLOBE.—The bulbs have a bright paper-white skin, with white flesh. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/6; lb., 12/6.

SOUTHPORT RED GLOBE.—A fine bright red onion for show purposes. Flesh white, tinted with pink near the crimson skin. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/6; lb., 12/6.

MULTIPLIER ONIONS

Varieties not generally grown from seeds. Bulbs usually available from February to early Spring.

ESCHALLOT, LARGE RUSSIAN.—The most popular variety, very hardy and prolific. Good for pickles. 1/- lb., post extra.

TREE ONION.—Tops, 1/6 lb., post extra.

POTATO ONION.—Bulbs, 1/6 lb., post extra.

MARROWS and SQUASHES

All the summer squashes and vegetable marrows should be cooked while the outer skin is tender enough to scratch with the finger nail, and should be cooked without peeling or removing seeds.

VEGETABLE MARROW

ITALIAN GREEN STRIPED (Bush)—●

Very prolific and one of the best of marrows for cooking while young. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 2/6; lb., 7/6.

LONG WHITE (Bush)—●

Very prolific. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 2/6; lb., 7/6.

ZUCCINI.—A select strain of Italian green bush marrow fruits, 12 inches long, dark green skin, mottled yellow when mature. Flesh thick, sweet and tasty. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-; lb., 9/-.

SUMMER SQUASH

ACORN.—A new squash of the Fordhook type, 7 inches long, 3 inches thick. Skin green, turning orange when ripe. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/3.

FORDHOOK—●

If gathered while still immature, no marrow or squash can approach this for delicious flavour; very prolific.

Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/3.

BUSH FORDHOOK—●

A bush form of the above. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/6; lb., 12/-.

EARLY WHITE BUSH SCALLOPED—●

The very best of this type. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 2/6; lb., 8/-.

GOLDEN CUSTARD (Bush).—Small flat marrows in profusion.

Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 2/6; lb., 8/-.

MIXED SCALLOPED.—A mixture of the patty pan type of marrow or summer squash. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 2/6; lb., 7/6.

TABLE PUMPKINS

IDEAL.—(See Novelty Pages).

SMALL SUGAR.—The earliest of all pumpkins, ready three months from seed. Cooks like marrow; poor keeper. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-; lb., 9/-.

CROWN.—A standard table variety. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-; lb., 9/-.

TRIANGLE—●

Triangle or Shamrock. Medium-sized pumpkin, but the best table pumpkin now grown. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-; lb., 9/-.

QUEENSLAND BLUE—●

A new table pumpkin, cheese shaped, of fine quality and flavour, of the type of the old ironbark. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-; lb., 9/-.

HUBBARD SQUASH—●

Equal in quality to ironbark pumpkin.

Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/3; lb., 10/-.

RED or GOLDEN HUBBARD.—Very good. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-.

NEW BLUE HUBBARD—●

A new Hubbard squash, with a rich blue-green skin and the quality of an ironbark pumpkin. Pkt., 6d.; oz., 1/-; $\frac{1}{2}$ lb., 3/-.

BANANA.—A fine flavoured winter squash. Pkt., 6d.; oz., 1/3; $\frac{1}{2}$ lb., 3/3; lb., 10/-.

TROMBONE or RIO GRAMMA—●

Best of all pie pumpkins. Pkt., 6d.; oz., 1/3; $\frac{1}{2}$ lb., 3/3; lb., 10/-.

JAPANESE PIE.—Green striped, very solid. Pkt., 6d.; oz., 1/6; $\frac{1}{2}$ lb., 4/6.

JUMBO or MAMMOTH.—The best large pumpkin for stock feed. Grows to an enormous size. Pkt., 6d.; oz., 1/3; $\frac{1}{2}$ lb., 3/6.

PEPPERS (Capsicum)

Pkt., 6d.; oz., 3/6.

CHINESE GIANT—●

As big as a quart pot; very mild; delicious stuffed.

BIRDSEYE.—Small, intensely hot; good for pickles and sauces.

CALIFORNIA WONDER.—●

Stocky, upright plants, bearing heavy crops of large, broad, deep green fruits, turning bright red when ripe. Flesh is thick and sweet.

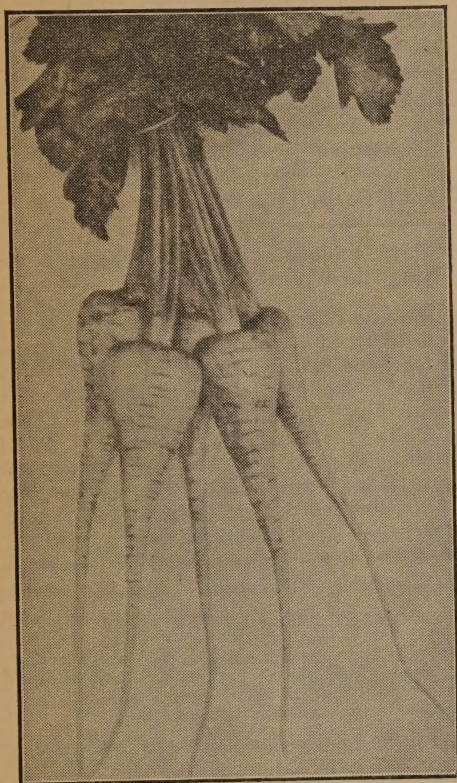

LONG RED CAYENNE.—Hot and pungent.

MIXED PEPPERS.—A mixture of various shapes and colours.

PARSNIPS

SHORT THICK.—A very early variety, roots filling out at an early stage, making it suitable for home gardens. When fully grown is 6 to 8 inches long and 2½ to 3½ inches thick. Good for bunching for market. Pkt., 6d.; oz., 1/-; ¼lb., 1/9; 1b., 5/-.

HOLLOW CROWNED.—● The standard market variety. Pkt., 6d.; oz., 1/-; ¼lb., 1/3; 1b., 3/6.

PARSNIP—Short Thick

PARSLEY

TRIPLE CURLED or Extra Dark Moss Curled. Pkts., 6d.; oz., 1/-; ¼lb., 1/6.

PEANUTS

Pkt., 6d.; 1b., 2/6. (Shelled seed.)

SMALL SPANISH, WHITE.—A standard variety; good cropper, hardy.

VIRGINIAN BUNCH.—Larger and longer pods.

PEAS

FREIGHT EXTRA.

(For Rates, see Page 45.)

Pkt., 6d., post paid, 9d. Quarter bushel and bushel prices on application. In the coastal and warmer climates peas are best treated as a winter crop, sown in Autumn. In the cooler and mountain climates spring sowing is best.

W. F. MASSEY.—18 inches. A new extra early pea of exceptional merit. Ready 3 weeks before Greenfeast. Heavy cropper.

1lb., 1/3; 5 lbs., 4/3, freight extra.

BLUE BANTAM.—20 inches. The best extra early variety. Heavy cropper. 1 lb., 1/9; 5 lbs., 7/6, freight extra.

RICHARD SEDDON.—● 18 inches. The best main crop pea for market or home use. The heaviest cropper of all peas., 2ft. high. 1 lb., 1/3; 5 lbs., 4/3; 10 lbs., 7/-, freight extra.

"WARATAH."—24 inches. New early large podded pea of finest quality and appearance. A few days earlier than American Wonder. 1 lb., 1/6; 5 lbs., 6/3, freight extra.

GREENFEAST.—● 30 ins. This shares with Richard Seddon the honor of ousting the old Yorkshire Hero from the position of the market gardner's pea; it is a better pea, and always sells at a higher price than the Yorkshire. 1 lb., 1/-; 5 lbs., 3/6; 10 lbs., 5/-, freight extra.

SOUTHERN CROSS.—30 inches. New main crop variety. Very heavy cropper. Takes the place of Yorkshire Hero. 1lb., 1/6; 5 lbs., 6/3, freight extra.

ALDERMAN.—The best tall-growing variety for stakes or trellis. Large crops of enormous pods. 1 lb., 1/6, freight extra.

SUGAR PEAS

TALL.—Require staking like beans. The pods are cooked whole. Pkt., 6d. (post paid, 9d.); 1 lb., 1/6; freight extra.

WINGED ASPARAGUS PEA.—A most prolific pea, delicious when cooked like beans. When ripe, shelled seeds make a rich vegetable jelly. Pkt., 6d.; ¼lb., 3/-; post paid.

HORSE RADISH

Roots, 6d. each; 4/6 doz.; postage, 3d. each; 1/- doz. extra.

RADISHES

Pkt., 6d.; 1lb., 1/-; 1lb., 3/-; except where stated otherwise.

WHITE ICICLE—● Fine long white, maturing 20 to 25 days.

EARLY LONG SCARLET—(Short Top) Early, crisp and fine flavour.

WHITE CHINESE—● These grow to a great size in China and Japan and are cooked like a turnip. Best sown in early autumn.

IMPROVED CHARTIERS—● A dainty crimson, long radish, with a white tip, very delicious. Oz., 1/-; 1lb., 2/-; 1lb., 5/-.

RENCH BREAKFAST—● Olive shaped. Bright rose scarlet, white tipped. Flesh white, firm, crisp, juicy and tender.

SCARLET WONDER—Popular turnip-rooted variety, all scarlet.

SPARKLER—Scarlet Turnip, white tipped.

SURPRISE MIXTURE—A mixture of all sorts, short, long and medium.

ROSELLA

The Rosella is a hot climate plant, much more tender than the tomato. The beautiful red seed bracts are used for making jelly and summer drinks.

EARLY—New strain which will mature in much shorter season than the old type. Pkt., 6d.; oz., 2/6.

LATE—Requires at least 4 months hot weather to mature. Pkt., 6d.; oz., 1/3; 1lb., 3/3.

RHUBARB

Pkt., 6d.; oz., 1/6; 1lb., 4/3; 1lb., 12/6.

SYDNEY WINTER—● The wonderful winter growing rhubarb, treated as an annual, sown in February or March, yields all winter in coastal districts, and very early spring in colder parts. Roots available March to June. Seedlings 2/- doz.; 7/6 100, post paid. Large roots 4/- doz., freight extra.

VICTORIA—The large standard summer rhubarb.

Roots seedlings May to August, 2/- doz.; 7/6 100, post paid. Large roots 4/- doz., freight extra.

SPINACH

Pkt., 6d.; oz., 1/-; 1lb., 1/6.
(See also Spinach Beet).

PRICKLY SEEDED—For Autumn planting.

NEW ZEALAND or SYDNEY HARBOUR—Large leafed; hardy.

SALSIFY (Oyster Plant)

SANDWICH ISLAND MAMMOTH—A delicious vegetable grown like parsnip. The boiled roots have a distinct oyster flavour. Pkt., 6d.

SCORZONERA

A root vegetable not unlike Salsify. Perennial. Pkt., 6d.

SWEET POTATO

Very seldom set seeds, so rooted cuttings are planted.

Strong hardened plants available September to January of following varieties:—H.A.C. Pink (Pink skin yellow flesh); Porto Rico, very early, excellent flavour (flesh bright orange); Jersey Yellow; Strassburg Yellow; White Bunching—a compact growing variety; Nancy Hall. Rooted cuttings. 1/6 doz.; 8/6 100, post paid; 1/- doz.; 7/- 100, freight extra.

EXTRACT FROM LETTER FROM "J.B.," EAST MOREE, 2/2/34

"I have won 4 first prizes four years in succession with your Fordhook Giant Silver Beet, and judge of 1935, who displays South Coast Exhibit at Royal Show, said he never handled nor saw better than I grew this year, as follows: 3-ft. 3-in. high, white 3 1/2-in. wide, weight 5-lbs., and 1-in. thick on whites."

EXTRACT FROM LETTER FROM MR. "E.J.," QUEANBEYAN, APRIL, 1935.

"I have won 4 first prizes four years in succession with your Fordhook Giant Silver Beet, and judge of 1935, who displays South Coast Exhibit at Royal Show, said he never handled nor saw better than I grew this year, as follows: 3-ft. 3-in. high, white 3 1/2-in. wide, weight 5-lbs., and 1-in. thick on whites."

EXTRACT FROM LETTER FROM "A.J.B.," ST. MARYS, TASMANIA. 7/8/34.

"Please find small order for seeds and I should like to say how well the Boronia Giant Cauliflower did with me: I had some very fine ones."

EARLY TOMATOES

Varieties marked F.W.R. are those that are resistant to Fusarium Wilt. This must not be confused with Bronze or Spotted Wilt, as there are no commercial varieties resistant to Bronze Wilt.

HELVETIA—● This tomato is gaining in popularity every year. Helvetia is a red cluster tomato producing fruit of a commercial size, up to two or three inches in diameter. It is an enormous cropper and if the fruit are systematically thinned they reach a fair size. Helvetia has proved not only a good early spring crop, but in the coastal districts it is unsurpassed for autumn planting, and may be put out several weeks later than Earliana and Early Pride class of tomato.

For glasshouse work it equals best English types such as E.S.I. and Kondine Red.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/9; oz., 5/-.

MARVANA—F.W.R. The vine is similar to Earliana, being rather open and flat. Pkt., 6d.; oz., 3/6; $\frac{1}{2}$ lb., 11/6.

BREAK O' DAY—F.W.R. An exceptionally fine type for coastal and inland plantings, both for home use and market. Not recommended for Bathurst district or similar tableland positions. Pkt., 6d.; oz., 3/6; $\frac{1}{2}$ lb., 11/6; lb., 35/-.

SUNNYBROOK EARLIANA—● The best flavoured tomato. Produces large smooth fruits of great uniformity. Pkt., 6d.; oz., 3/-; $\frac{1}{2}$ lb., 10/-; lb., 30/-.

AUSTRALIAN EARLIANA or SORBY SUNNYBROOK—Strain selected for yield by Mr. Johnstone and later by Mr. Sorby. Quite distinct to our regular Sunnybrook. Saved under Government "pure seed" scheme. Pkt., 6d.; oz., 4/6; $\frac{1}{2}$ lb., 12/6.

EARLY PRIDE—● A pink Earliana, but better than any Earliana, more even in shape and size. Three-quarters of an acre yielded 7 tons, and sold for £180 at Inverell. Pkt., 6d.; oz., 3/-; $\frac{1}{2}$ lb., 9/-; lb., 27/6.

BURBANK—We have grown a number of plants of this tomato and find it to be the earliest large tomato and one of the most productive. Most of the fruits are quite round and smooth. The flesh is firm and of good quality. Pkt., 6d.; oz., 3/-; 4oz., 10/6; lb., 32/6.

WALKER'S SELECTED RECRUIT—Similar type to Helvetia—larger than Bide's Recruit. Pkt., 6d.; oz., 3/-; $\frac{1}{2}$ lb., 10/-; lb., 30/-.

ADELAIDE DWARF or CHINESE—Popular glasshouse variety. This is the variety that is largely grown in South Australia for the early market. The colour is a bright red. Pkt., 6d.; oz., 4/6; $\frac{1}{2}$ lb., 12/6.

SECOND EARLY TOMATOES

LOW BRANCH—(See Novelty Pages).

PRITCHARD—F.W.R. Scarlet, medium sized smooth fruits. Vines short jointed and foliage dense. Pkt., 6d.; oz., 3/6; $\frac{1}{2}$ lb., 11/6.

BONNY BEST—● An early smooth scarlet tomato of good size, solid, meaty, and of good flavour. A good cropper. Since we first introduced this tomato in 1915 its popularity has increased every year. It is now one of the most popular market varieties being the standard sort for Bathurst district.
Pkt., 6d.; oz., 3/-; $\frac{1}{2}$ lb., 9/-; lb., 27/6.

RUMSEY'S GREENHOUSE SPECIAL—F.W.R. Excellent for both outdoor and glasshouse cultivation. Vigorous grower, but foliage scanty. Similar shape to Bonny Best. Pkt., 6d.; oz., 5/-.

CHALK'S EARLY JEWEL—● One of the best. Fruit, red, meaty. Very good cropper.
Pkt., 6d.; oz., 3/-; $\frac{1}{2}$ lb., 10/6; lb., 30/-.

BURWOOD PRIZE—Our specially selected strain of this tomato is very fine, yielding fine fruit. The potato leaved foliage makes it very handsome as a plant. Pkt., 6d.; oz., 3/6; $\frac{1}{2}$ lb., 11/6; lb., 35/-.

MAIN-CROP TOMATOES

MARHIO or MARVELOUS. F.W.R.—See Novelties.

COLLOSSAL.—Is a large, red tomato, more prolific than Ponderosa, and of even large size, very solid, and free from core. Pkt., 6d.; oz., 3/6.

MARGLOBE.—A variety specially bred for resistance to fusarium wilt. A main crop scarlet, smooth, solid and globe shaped. A very fine variety for market. Pkt., 6d.; oz., 3/-; 1lb., 10/6; lb., 32/6.

MATCHLESS.—This is the largest and best of the late red tomatoes. It is a heavy cropper, and a good market variety, ripening very evenly if picked when commencing to change colour. Specimens frequently reach 12 to 18 ounces in weight. Pkt., 6d.; oz., 3/-; lb., 9/-; lb., 27/6.

PONDEROSA.—Very large rough variety. Pkt., 6d.; oz., 3/6; 1lb., 11/6.

LIVINGSTON'S STONE.—Immense cropper, fine flavoured, bright red, perfectly smooth. Pkt., 6d.; oz., 3/-; 1lb., 10/6; lb., 32/6.

BURPEE'S DWARF GIANT.—A dwarf ponderosa, fruit large and meaty, rich purplish crimson. Pkt., 6d.; oz., 5/-; 1lb., 15/-.

LIVINGSTON'S CORELESS.—About the finest flavoured dessert tomato. Good for slicing; very solid; good market sort. Pkt., 6d.; oz., 3/6; 1lb., 10/6; lb., 32/6.

OXHEART.—A large, meaty tomato, quite distinct from any other sort. 6d.; oz., 5/-.

NORTON.—F.W.R. Not unlike Livingston's Stone. Pkt., 6d.; oz., 3/-; 1lb., 10/6; lb., 30/-.

BOWEN BUCKEYE.—F.W.R. A Queensland variety which is a prime favorite with growers in that State and largely used for shipping in early spring. Pkt., 6d.; oz., 5/-; 1lb., 15/-.

DENNISONIA.—F.W.R. Another production of the Queensland Agricultural Department which has proved to be a wilt resister and very prolific; it is almost apple-shaped. Pkt., 6d.; oz., 5/-; 1lb., 15/-.

LIVINGSTON'S GOLDEN QUEEN.—●

This is a fine, large, smooth variety, of a bright yellow colour, and fine flavor. Pkt., 6d.; oz., 3/6; 1lb., 11/6.

LARGE FRUITED KINDS MIXED.—

For home gardeners wanting a variety for small areas. Pkt., 6d.; oz., 2/6.

SMALL FRUITED TOMATOES

SMALL FRUITED MIXED.—A mixture of all small fruited kinds listed below. Pkt., 6d.; oz., 3/6.

KING HUMBERT.—Immense bunches of prune-shaped fruit; disease resistant. Pkt., 6d.; oz., 2/6; 1lb., 9/-.

SUNDRY SMALL FRUITED KINDS.—

Pkts., 6d.
Yellow Pear, Red Pear, Yellow Cherry,
Yellow Plum, Red Peach, Red Cherry.

SWEDE TURNIPS

Special quote for larger quantities.

LAING'S GARDEN SWEDE.—●

Best and sweetest. A small swede for home use.

Pkt., 6d.; oz., 1/-; 1lb., 1/6; lb., 5/-.

DANISH BANGHOLM.—The best flavoured and most nutritious of the swedes, purple top.

Pkt., 6d.; oz., 1/-; 1lb., 1/6; lb., 3/6.

ELEPHANT OR MONARCH.—●

Very large heavy cropper.

Pkt., 6d.; 1lb., 1/3; lb., 3/6.

CHAMPION OR IMPERIAL PURPLE

TOP.—Yellow flesh, good quality.

Pkt., 6d.; 1lb., 1/3; lb., 3/6; 4lbs., 10/6; 10 lbs., 22/6.

WHITE TURNIPS

WHITE STONE.—● Good early sort.

Pkt., 6d.; oz., 1/-; 1lb., 1/6; lb., 4/-.

JERSEY LILY, or SNOWBALL.—●

Perfectly round, snow-white, and very early.

Pkt., 6d.; oz., 1/-; 1lb., 1/6; lb., 4/6.

ORANGE JELLY.—The best of all this class turnip, flesh yellow, and not strong flavoured.

Pkt., 6d.; oz., 1/-; 1lb., 1/6; lb., 4/-.

Vine Fruit

Under this heading we are placing several more or less different things that are often grown in the vegetable garden.

MIXED ORNAMENTAL GOURDS—● ..
They are in some cases useful as well as ornamental.

Large Mixed 6d.; Small Mixed 6d., pkt.

PIPE GOURD, or CALABASH—●

This is the gourd from which the Calabash pipes are made.

Pkt. 6d.

LOUFA—The fibrous skeleton of this gourd is used as a bath sponge.

Pkt., 6d.

GAUDA BEAN—Not a bean, but a cucumber-like gourd, growing to a great size in warm situation.

Pkt., 6d.

NEST EGG—A small hard-shelled egg shaped white gourd, about the size of an egg. Pkt., 6d.

MELON PEACH—Not unlike a Rock Melon, may be sliced and fried like Egg Plant, or made into preserves. Pkt., 6d.

THE CHOKO

This fruit is as easy to grow as a cucumber, and is used for many culinary purposes. May to August.
1/6 each, 3 for 3/-, post paid.

PASSION FRUIT

The passion fruit has become a very important commercial crop. As a money-maker the common passion planted out in frost-free localities, in late spring for a winter crop is unrivalled. Our seed stock is the best available for this purpose.

COMMON PASSION—(*Passiflora edulis*)
—Best winter fruiting strain.

Pkt., 6d.; oz., 2/6. Plants (from open ground), 1/- each; 3 for 1/6; 3/6 doz.

Post-paid in N.S.W.

Special quotes for 100 lots.

BANANA PASSION—(*Tacsonia mollissima*)—This fine popular fruiting vine produces large crops of white fruit, that are greatly in demand for fruit salads.

Pkt., 1/-; ½ oz., 2/6; Plants (pot grown), 2/6 each, post paid in N.S.W.

STRAWBERRY SEED

All 6d. packet, post paid.

We have seed in stock of the following varieties.

Large Fruited, Mixed.

Alpine Bush, Red; Alpine Bush, White

VEGETABLE SEED COLLECTION

- 1 „ Cucumber
- 1 „ Lettuce
- 1 „ Marrow

- 1 Pkt. Parsnip
- 2 „ Tomato, Early and Late
- 1 „ Turnip
- 1 „ Pumpkin
- 1 „ Radish
- 1 „ Watermelon, Rockmelon, or Preserving
Melon (your choice)

Choice of varieties to be left entirely to us. We will select ones suitable for your climate.

When special varieties are asked for, catalogue prices will be charged.

Potatoes

Lawn Grasses and Farm Seeds

Where prices are given, they are freight or postage extra. For rates, see page 45. Owing to constantly fluctuating prices for farm seeds, we cannot quote prices in this, our Annual Catalogue, except for a few special lines.

We shall always be pleased to quote customers current rates by return mail. Our quotes include bags, but not freight.

SOMETHING SPECIAL IN SEED POTATOES

(See also Novelty Pages.)

We have again made special arrangements to procure our stocks from crops free from diseases and of high average yield. It is to your advantage to procure the best. As supplies will be limited, order should be booked early to avoid disappointment. **Factors** (almost identical with **Up-To-Date**), **Early Rose**, **Brownell's Beauty**, and **Satisfactions**. Available from June.

LAWN GRASSES

2-lb. Seed required per 100 square yards.

We can supply heavily re-cleaned seeds specially for lawn as follows:

Lawn Couch—2/- lb.

Couch Grass Roots—12/6 sack.

Special Evergreen Lawn Mixtures—3/- lb.

Buffalo Grass (Roots Only)—2/6 100; 17/6 1,000.

Kikuyu Grass (Roots Only)—7/6 100; 52/6 1,000.

HUNTER RIVER LUCERNE

BEST BROADLEAF GIANT

This is by far the most valuable fodder plant we have and should be grown everywhere. It requires lime and plenty of water to succeed. In fact, in few parts of Australia is there sufficient water from annual rainfall to get the best results this plant is capable of.

LUPIN

New Zealand Blue—Excellent for green manuring; 5d. lb.; $\frac{1}{4}$ -bushel, 4/-; bushel (60-lbs), 13/6.

KALE

THOUSAND HEADED.—4/- lb.

CHOU MOLLIER.—4/- lb.

MANGOLD

LONG RED.—Best and most popular for stock feed. 2/- lb.

MUSTARD

Finest White. For winter green feed, 1/6 lb.

RAPE

BROADLEAVED ESSEX. — Excellent winter green feed for poultry, 9d. lb.

SUGAR BEET

IMPROVED WHITE.—High quality strain, 3/- lb.

SUNFLOWER

LARGE RUSSIAN.—Grown for birds, 1/6 lb.

TAGOSASTE

The so-called tree lucerne, $\frac{1}{4}$ lb., 1/6.

Flower Seeds

LEAFLET ON HOW TO RAISE SEEDLINGS ON REQUEST

We shall be pleased to quote Special Rates to Cut Flower Growers and Nurserymen for larger quantities than listed.

H.A.—Hardy Annual; sow February to April, and August to October.
H.P.—Hardy Perennial; sow March to May, and September to November.
T.P.—Tender Perennial. Plants for bush-house and verandah culture. Sow in Spring.

H.B.—Hardy Biennial, sow March to May, and September and October.
T.A.—Tender Annual; sow September and October, and later in warm climate.
H.H.A.—Half hardy annual. Sow in Spring after frost danger is over.

Abronia, H.P. (Trailer). 6d.

Verbena like flowers, sweet scented. Sometimes called "Sand verberna."

Acroclium, H.A. 3d.

Double Mixed—Mainly pink and white "Everlasting" flowers on plants growing to 15 inches.

Ageratum, H.P. (Border Plant). 3d.

Mexicanum Mixed—Showy plants growing up to two feet in height, with clusters of light blue, dark blue, or white flowers.

Amaranthus, T.A. (Foliage Plant).

Tricolour (Joseph's Coat)—Yellow, red and green. Pkt., 3d.

Salicifolius—(Fountain plant). 6d.

Coleus Leaved—Very brilliant colors. Pkt., 3d.

Combustion—The latest and most showy of all the Amaranthus tribe, with iridescent fiery rosy crimson foliage. Pkt., 6d.

Alyssum, H.A. (Sweet Alice). 3d.

Little Gem—Bedding Plant, white fragrant.

Lilac Queen—Beautiful soft lilac flowers changing to white as they age. A free and continuous bloomer of trailing habit. Pkt., 6d.

Compact Yellow—Fine for edging. Perennial.

Anchusa, H.A. 6d.

Bluebird—Resembles Forget-Me-Not.

Anemone, H.P. (Windflower). 6d.

Choicest Mixed—A mixture of all the best types, including St. Brigid.

Antirrhinum—See Snapdragon

Aquilegia, H.P. (Columbine).

Mrs. Scott Elliot Hybrids—An exceptionally fine free blooming strain of varied colours. Pkt., 1/.

Long-Spurred Hybrids—Wonderful profusion of colours from blue to chocolate, pink and scarlet. Pkt., 6d.

Arctotis, H.A.

Scapigera Mixed—Large blooms of this African Daisy in many bright colours. Pkt., 1/.

Grandis—White, centre blue, bud lilac-blue. About two feet high, stands dry weather. Pkt., 6d.

Asparagus

Fern-leaved, a mixture of several of these hardy foliage plants. Pkt. 6d.

Balsam, T.A. (Ladies' Slipper).

Defiance—The finest strain of large double flowers. Good for borders or verandah plants. Pkt., 6d.

Bartonia, H.A. (Gold Star). 3d.

Aurea—Thistle-like downy leaves, yellow flowers, two and a half inches in diameter.

Begonia, T.P.

Bedding Mixed—Beautiful everblooming herbaceous plant, suitable for bushhouse or verandah. Pkt., 6d.

Bellis Perennis, H.P.

Finest Double Mixed—English Daisies. Does well in cool climates. Pkt., 6d.

Boronia, H.P. (Scented). 1s.

Megastigma—The well-known Brown Scented Boronia, sometimes called "Melbourne Boronia" though it is a W. Australian native.

Carnations, H.P.

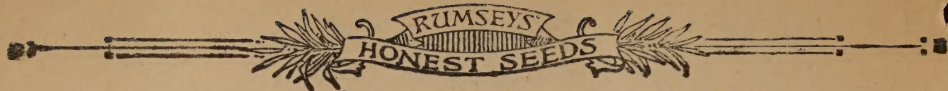

The giant everblooming Carnations are unexcelled for bedding where a bright show is desired at a minimum of cost. Best treated as annuals but may be grown on for several years.

Enfant de Nice—The result of crossing Improved Chabaud and Perpetual varieties. This is the last word in annual carnations. Many flowers are 2½ inches across and about 90% are doubles. Pkt., 1/; ¼-oz., 10/.

Chabaud Giant Improved—A new carnation of the marguerite type coming into bloom 6 months from seed and producing very large flowers highly clove scented. About 90 per cent. of the flowers come double. Pkt., 6d.; ¼-oz., 2/.

CHABAUD GIANT IMPROVED

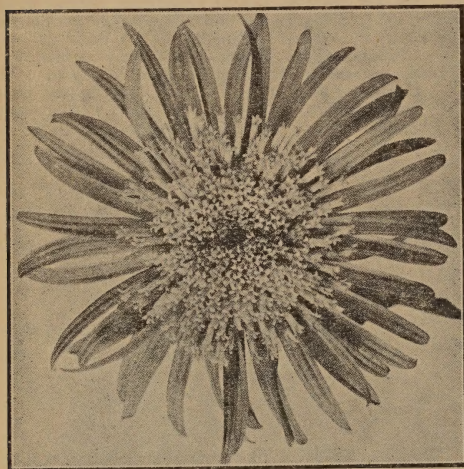

Asters, H.H.A.

Asters are one of our specialities. Our strains are found on the show benches throughout the Commonwealth, for size and quality of bloom there are none better.

Giant California Sunshine Mixed.—

The colour in these new Asters is startlingly beautiful. A dual-tone effect is obtained through the contrasting tints of the disc-like centre and the outer or guard petals. Gracefulness of form is a distinguishing characteristic. The full centres of tubular, bifurcate petals surround the centre, creating an airy, lace-like effect, which is altogether charming. In colour the flowers may be described as varying shades of Enchantress-pink. Apple-blossom, Deep-rose, Blue and Lavender, but the disc, sometimes light yel-

Californian Sunshine

low, sometimes blue, brings additional variety in tint. Pkt., 6d.; $\frac{1}{2}$ oz., 3/6.

Boronia Mixture—This is a special mixture made up of most of the best varieties of aster for the small cut-flower grower or the home gardener, who wants a big bed for cutting. Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; oz., 5/6.

Grego Giant, F.W.R.—Best for early sowings. Very vigorous, producing large blooms on long stems. Grego flowers keep well, and are very fine for table decorations. The petals are curled and twisted like chrysanthemums.

The colours are: Shell-pink, rose, violet, white, purple, crimson, and mixed. Pkt., 6d.; $\frac{1}{2}$ oz., 2/.

Improved California Giants. (Curled and interlaced, special strain.)—This is an extra robust strain. It is noted for its immense flowers on long stems. The colours offered are peach-blossom, deep rose, light blue, white, dark purple, light purple, and mixed. Pkt., 1/-; $\frac{1}{2}$ oz., 3/6.

Super Giant Los Angeles.—Enormous blooms of the Californian Giant type, but larger and earlier. Flowers are a pure shell pink. Pkt., 1/-.

American Beauty. (Extra special strain) — Distinct type, they are more dahlia-like in form, and make a fine rounded bush from 2½ to 3 feet in diameter. They are, most of them, much later than other varieties of aster, and come into bloom after the others have finished. The wonderfully fine blooms are carried on strong stems, making them invaluable for cut flowers.

The colours are: Rose, purple, shell pink, white, peach blossom, azure crimson (F.W.R.), carmine rose (F.W.R.) and mixed. Pkt., 6d.; $\frac{1}{2}$ oz., 2/6.

Tasmanian Branching Mixed—These aster plants are well branched as their name implies, growing to two feet or more in height and covered in blooms of the short straight petalled type. Pkt., 6d.; $\frac{1}{2}$ oz., 1/6.

American Late Branching (Wilt Resisting)—A splendid upright growing type, 2 to 3 feet tall, branching freely, forming fully double large round blooms, almost globular. Very fine for cutting. Mixed. Pkt., 6d.; $\frac{1}{2}$ oz., 2/-.

Heart of France (New Wilt-Resisting Strain.)—A ruby-red aster, flowers of excellent size and perfect formation. Flowering on long and strong stems. Plant two feet high. Pkt. 1/-, $\frac{1}{2}$ oz., 4/6.

ASTER WILT

Varieties marked (F.W.R.) have been grown from Fusarium wilt-resisting stock.

Snapdragons (*Antirrhinum*)

ANOTHER RUMSEY SPECIALITY

See also Novelty Page

TALL LARGE-FLOWERING GIANTS.

A magnificent strain of this very useful flower. The spikes of bloom are tall and the immense florets are set closely together. The colours are vivid and very varied. We are sorry that we are unable to reproduce the fine coloured plate that we issued with the first edition of this catalogue.

Our sales of this snapdragon have been phenomenal. We have not only sold hundreds of packets to private gardeners, but such varieties as Sunnybrook and Fordhook Rose have been in great demand for the cut-flower trade.

Fireflame—A particularly bright new colour. Fiery Red, suffused orange scarlet.

Apple Blossom, delicate pink; **Sunnybrook**, blend of deep golden yellow, salmon and light orange; **Fordhook Rose**, very bright rose pink; **Canary Bird**, very showy bright yellow; **Orchid**, mauve-pink; **Ruby**, glowing deep red; **Wallflower**, rich coppery crimson and yellow.

Floradale—Salmon rose.

Giant Mixture—A blend of the best colours.

Pkt., 6d.; $\frac{1}{2}$ oz., 2/-; $\frac{1}{2}$ oz., 3/-.

MAJESTIC SEMI TALL.

These produce giant flowers on half dwarf stems. For florists' work they are unexcelled.

Majestic Delight, salmon pink shading to apricot; **Majestic Sunset**, shades from bright terra-cotta to lovely salmon; **Majestic Twilight**, delicate apricot with gold centre and salmon shading; **Majestic Orange King**, a lovely blend of rich terra-cotta shades; **Majestic Mixed**. Pkt., 6d.; 1-8oz., 3/-; $\frac{1}{2}$ oz., 5/-.

DWARF VARIETIES.

Dwarf Mixed

Compact habit, brilliant flowers. Pkt., 6d.

Boronia Mixed—An excellent mixture of all the best tall and intermediate large flowered varieties. Pkt., 6d.

INTERMEDIATE VARIETIES

White Rock.

An immense flower of exquisite texture, pure white. Pkts., 1/- and 2/6; $\frac{1}{2}$ oz., 5/-.

Philadelphia Pink.

Massive spikes covered with rich silver-pink flowers. Florists' variety. Pkt., 6d.; $\frac{1}{2}$ oz., 1/6.

Half Dwarf—Fancy Mixed.

Includes beautiful rich scarlet, fiery vermilion, rich rose, soft pink, salmon, buff, yellow, golden chamois and others, flowering profusely. The half-dwarf varieties are about the best for bedding and bordering purposes, and produce stems of flowers long enough for cutting, though not as large as the giant varieties. Our mixture contains nearly thirty varieties of shade and colour.

6d. per packet; $\frac{1}{2}$ oz., 1/6.

Splashed and Striped Mixed.

Very pleasing variety of colours. Pkt., 6d.

Boronia Mixed—An excellent mixture of all the best tall and intermediate large flowered varieties. Pkt., 6d.

Calendula, H.A... (English Marigold).

See also Novelties.

Chrysantha or Sunshine—Large bright golden yellow flowers, petals somewhat resembling chrysanthemum. Pkt., 6d.; $\frac{1}{2}$ oz., 1/-; oz., 3/-.

Golden Beam—Fine golden yellow form of the quilled petalled "Radio" type. Pkt., 6d.; $\frac{1}{2}$ oz., 1/-.

Campfire—Brilliant Orange with crimson or scarlet sheen. Pkt., 6d.; $\frac{1}{2}$ oz., 1/-; oz., 3/-.

Radio—Quilled petals quite a novelty, deep orange in colour. Pkt., 6d.; oz., 1/6.

Orange King—Special Florists strain. Rich orange flowers, fully double, well rounded. Pkt., 6d.; $\frac{1}{2}$ oz., 1/-; oz., 2/6.

Double Special Mixed—A mixture of all the best types and colours. Pkt., 3d.; $\frac{1}{2}$ oz., 1/-.

Calliopsis, H.A. (Coreopsis). 3d.

Fine single flowers for cutting, blooms for many months. Plant out in shaded positions.

Tinctoria—Mixture of brown, yellow and mahogany shades.

Drummond's (Golden Wave)—Dark brown centre.

Coronata—Bright yellow, maroon spots.

Candytuft, H.A.

Giant Hyacinth Flowered—Magnificent spikes of pure white flowers. Pkt., 6d.

Good Mixed—A fine assortment. Pkt., 3d.

Campanula, H.B. (Canterbury Bells).

Annual Mixed—Blossoms from seed in less than six months. A great acquisition for warm climate conditions. Plants are hardy and can be grown at almost any time of the year. Mixture includes dark blue, light blue, pink, rose and white. Pkt 1/-

Single Mixed—Various colours; free bloomers. Pkt. 3d.

Double Mixed—Very showy. Pkt. 6d.

Canna, Herb. P. (Indian Shot). 6d.

Choice Mixed—Handsome ornamental foliage plants. A fine assortment may be grown from seed.

Celosia, T.A. 6d.

Magnificent—Each branch or stem of this beautiful shrub is tipped with a pointed head of richly coloured bloom which later develops into a loose, plumed head of the most brilliant colours; shades of orange and yellow, pink, scarlet and crimson.

Childsii or Chinese Woolflower—Beautiful ball-like heads of flower produced in profusion. Pink, Crimson and Yellow Mixed.

Magnifica Cristata—Immense velvety heads, very suitable for borders. Cockscomb type.

Centaurea, H.A.

Sow where required; do not transplant.

Imperialis—Beautiful for cut flowers; plants three feet high. Graceful and beautiful. Fine mixture. Pkt. 6d.

Americana—Unique, thistle-like flowers, light lilac colour; very desirable for table decorations. Pkt. 6d.

Cyanus (Corn Flower) Double Blue—Pkt. 3d.
Double Mixed, 3d.

DOUBLE CLARKIA

Clarkia, H.A.

Choicest Double—Separate colours: Firebrand; La France, pale salmon pink; Ruby King; Enchantress, salmon pink; Illumination; Chieftain, mauve; Scarlet Queen; White Queen, and Mixed.

Pkt., 6d.; 4oz., 1/6.

One pkt. each 8 separate colours for 3/-.

Chrysanthemum, H.A. & H.P.

See also novelty pages.

The results of growing the double Chinese and Japanese Chrysanthemum from seed are usually so poor that we advise customers to purchase plants of named sorts.

The following varieties, however, give good results from seed:

Tricolour, Annual—Single "Painted Daisies."

Pkt. 3d.

Coronarium—Double Mixed Annuals, various colours. Pkt. 6d.

Maximum (Shasta Daisy)—Perennial plants, bearing large white flowers. Pkt. 6d.

Cinerariaefolium—Pyrethum or Insect Powder Plant of Commerce. Pkt. 6d.; oz. 3/-.

Frutescens—Marguerite or Paris Daisy. Perennial bushy plants. White flowers. Pkt. 6d.

Clianthus

Dampieri—This is the well-known Desert Pea. Its huge, unique flowers are particularly striking. Pkt. 1/6.

Puniceus—New Zealand Glory Pea.

Pkt. 1/-.

Cineraria

These were at one time looked upon as plants for the greenhouse, but in our genial coastal climate they make fine bedding plants.

Hybrida Choice Mixed—Seed from a very fine collection of this beautiful flowering plant.

Pkt., 1/-.

Coleus, T.A.

These also do as well in the garden, especially during summer, but as pot and house plants they may be grown indoors or on sheltered verandahs during the winter.

Fine Mixed—Various colours. Pkt. 1/-.

Fancy Fringed—Beautiful large leaves, cut and fringed on the borders. Pkt., 1/6.

Corn—Burbank's Rainbow, T.A.

Leaves are beautifully striped like ribbons, in crimson, yellow, white, green, rose, and bronze. They retain colour when dried and pressed.

Pkt., 6d.; oz., 1/-.

Cosmos, H.A.

See also novelty pages.

Giant Mixture—Large, graceful flowers on immense bushes. Pkt., 3d.

Earliest Mixed—Fine, large, very early flowers, with a large number of colours and shades. Pkt., 3d.

Early Double Crown—The flowers come in all types of doubles and semi-doubles, some like miniature dahlias, others like asters, and any of them forming the daintiest decorative flowers imaginable. Some of the best of these set so few seeds that it is almost impossible to reproduce them in quantities sufficient to offer separately. Pkt. 6d.

Cyclamen, P.B.

Persicum Giganteum Mixed—Beautiful verandah plants. Pkt., 1/-.

Dahlia (Perennial Root).

Sow in Spring. As dahlias very seldom come true from seeds, the following varieties indicate the types from which seeds are saved. The resulting blooms will usually show a good deal of variation from parent types, and are, therefore, more interesting. Most of them will bloom the first year from seeds, but may show a marked improvement if bulbs are saved for the second year.

Decorative Mixed—Choice strain; best types. Pkt. 1/.

Pom Pom—Small, neat, double flowered. Pkt. 1/.

Boronia Mixed—All types in mixture. Pkt. 6d.

Daisy (see Bellis Perennis).

Delphinium, H.P. (Perennial Larkspur).

Most beautiful spikes of flowers, ranging from white through all shades of blue to the deepest indigo, some of them with shadings of bronze. Extreme care must be taken with germination moisture, or failure will result.

Hollyhock Strain Mixed—Wonderful type with stately spikes of large single, semi-double and double blooms. Pkt. 2/.

Rumsey's xxx Hybrids—Superb Mixture. New seed arrives in October. Pkt., 1/; ½-oz., 4/.

Gold Medal Mixture—A splendid assortment, including the fine indigo blues, as well as the lighter colours. Best New Zealand seed in mixture. Pkt., 1/; ½-oz., 3/6.

Chinensis—Cambridge Blue—A new, clear, belladonna blue flowered variety, growing to about 3ft. Pkt. 1/.

Chinensis—Blue Butterfly Improved—Dark blue dwarf variety, 1ft. Pkt. 6d.

Diaseia Barbarae, H.P.

A lovely dwarf plant with flower spikes 12 to 18 inches high. Rose pink blossoms with tint of salmon. Yellow throat dotted with apple green. Pkt. 1/.

Dianthus, H.A. & P. (Pinks).

Some of the old favourite pinks have been improved, and new ones added to the list, making a wonderful variety of these deliciously scented flowers.

Allwoodii—A recent English introduction of perennial double carnation-like dianthus, that blooms right through the season. All the flowers, which are of many colours, are deliciously scented. Pkt. 2/.

Laciniatus—Double Mixed—Deeply fringed petals, two or three inches across; blotched and fringed. Pkt. 3d.

Picotee—A sweetly-scented, old fashioned type of Dianthus or Carnation. Very free flowering. Pkt. 6d.

Chinensis—Double Mixed—Clusters of small flowers mostly edged with white. Pkt. 3d.

Fordhook Favourites—An American selection of the largest and best single and double flowers. Pkt. 3d.

Didiscus (Blue Lace Flower), H.H.A.

Coeruleus—A native of Western Australia. Very dainty. Pkt., 6d.

Digitalis, H.P. (Foxglove). 3d.

Fine Mixed—Immense spikes carrying a solid mass of beautifully spotted flowers.

Dimorphotheca, H.A. 6d.

African Daisy Hybrids—A mixture of various shades and colours.

Eschscholtzia (California Poppy).

Sunset Mixture—A blend of all the most recent colours and shades, including orange-king, rose cardinal, scarlet and yellow, yellow and orange-red, primrose and pure white.

Beautiful new colours. Pkt., 3d.

Freesia (Hardy Bulb). 6d.

Lorenziana Hybrids Mixed—A beautiful selection of colour. Easily grown.

Forget-Me-Not, H.A. (Myosotis).

Palustris—The true Forget-me-not. Pkt. 1/.

Gaillardia, H.P. (Blanket Flower).

Portola Hybrids—A new type of Gaillardia, golden yellow, marked with rich scarlet. Strong growth; free flowering. Pkt. 6d.

Picta Lorenziana—Large, gay-coloured double flowers. Pkts. 3d.

Fine Mixed—Large single flowers in blendings of red, scarlet, yellow and orange. Pkt., 3d.

Geranium, H.P. (see Pelargonium).

Geum, H.P.

Mrs. Bradshaw—A pretty perennial shrub, with orange-scarlet flowers. Pkt. 6d.

Lady Stratheden—Beautiful semi-double bright yellow flowers carried on well branching plants. Pkt. 1/.

Godetia, H.A. 3d.

See novelty pages.

Finest Mixed—Charming annuals with flowers like azaleas in lovely shades of rose, carmine, pink, and white.

Gladiolus (Hardy Bulb).

Fordhook Hybrids—A most glorious collection of these beautiful flowers. We have flowered them in four months, from seed; most of the seedlings flower the first year, but the blooms improve in the second year. We could occupy a whole page in describing these flowers without doing full justice to them. Pkt., 6d.; ½-oz., 1/6; oz., 4/6.

Gypsophylla, H.A. (Baby's Breath).

Elegans—Rose. Pkt. 6d.

Elegans—Covent Garden—Sprays of wee, white flowers used for making up bunches of sweet peas and other flowers. Pkt. 6d.; oz. 1/6; ½lb. 2/9.

Gomphrena (Globe Amaranth).

Globosa, Mixed—Purple everlasting flowers, often used for edging. Pkt. 3d.

Heuchera, H.P. (Coral Bells).

Sanguinea Splendens—Spikes of bell-shaped flowers coral red in colour. Excellent border plant. Pkt. 1/.

Heliotrope, H.P. (Cherry Pie).

Lemoine's Giant Hybrid—Of wonderful size and rare beauty. Colours from white through all shades of violet and blue to deep indigo. Pkt. 1/.

Helianthus (Sunflower).

New Red—Chestnut red, tipped with yellow. Pkt. 6d.

Chrysanthemum Flowered—Perfectly double. Pkt. 6d.

Miniature—Useful for cut flowers. Pkt. 3d.

Large Russian—Pkt. 3d. For large lots see farm seeds.

Helychrysum, H.A. (Everlasting).

Monstrum, Mixed—Hardy, free-blooming useful. Pkt. 3d.

Hibiscus, H.P.

Giant Mixed—Moscheutos hybrids are very hardy and form large flowers on canes, 4 to 6 feet long. Bloom throughout summer. Pkt. 6d.

Hollyhock, H.P.

Begonia Flowered, Mixed—These fine perennials carry large double crested blooms which are a decided advance on the older types. Pkt., 1/-.
Chaters Double—Beautiful long spikes, crowded with double flowers, three to four inches across, all of the brightest colours. White, light pink, maroon, rose, scarlet and yellow mixed. Pkt. 6d.

Hunneman, H.P. (Santa Barbara Poppy), 6d.

Fumariaefolia—Single, poppy-like flowers. Fine for cut flowers.

Iris (Hardy Bulb). 6d.

Kaempferi—The beautiful Japanese Iris.

Kochia, H.A. (Mexican Fire Plant)

Giant Christmas—A large bunchy form, staying green much longer. Pkt. 3d.

Lavandula (Lavender).

Vera—True lavender. Pkt. 6d.
Spica—Spiked lavender. Pkt., 6d.

Lobelia, H.A. (Edging Plant). 6d.

Erinum—Crystal Palace—Pretty blue flowered edging or bedding plants.

Leptosyne, H.P. (Yellow Marguerite).

Maritima—Showy border plant; large flowers, 6d.

Lillum (Bulb).

Regale—Royal lily of Thibet. White flowers flushed canary in throat with pink reverse to petals. Large blooms and many to each stem. Easily grown. Pkt., 6d.; 1/2-oz., 2/6; oz., 7/6.

Linaria, H.A. (Toad Flax). 3d.

Excelsior Mixed—New hybrids of this remarkable Lobelia-like flower.

LARKSPUR—Tall Branching

Page Thirty-two

Lupin, H.A. & P.

New Hybrids Mixed—Represents the latest improvement in perennial lupins. Long spikes of bloom in many colours. Pkt., 6d.; 1/2-oz., 1/6.

Annals Mixed—Fine for cutting. Pkt. 6d.

GIANT PEARL LUPINS.

Pkt., 6d.; oz., 1/; 1/2-lb., 2/6.

Pink Pearl—One of the best things in cut flower line we have ever introduced. Sown about February, this beautiful annual will flower right through the winter in all but the colder localities.

White Pearl—Equal to Pink Pearl for size of bloom.

Blue Pearl—Similar in size and form to the Pink Pearl, but blue in colour.

Mixed—Pink, Blue and White.

Lychnis, H.P. (Chinese Catchfly).

Chalcedonica—Bright scarlet; good for borders and shrubberies; also for cut flowers. Pkt. 6d.

Larkspur, H.A.

Sow in the garden where required during late autumn or early spring.

Tall Branching Mixed—The branching spikes are thickly set with fine double flowers in varied colours. Pkt., 3d.; 1/2-oz., 1/; oz., 2/6.

Giant Imperial—Upright or Delphinium form. The old larkspur with its rather straggly flower spikes has never been very popular as a cut flower, but by careful breeding and selection new varieties have been evolved which are a great improvement. The colours are more varied and the individual florets larger and more beautiful. We can supply Dark Blue Spire, Lilac Spire, Exquisite Pink Improved, White Spire, Exquisite Rose, Carmine King, and Special Mixed. Pkt., 6d.; 1/2-oz., 1/6.

Marigolds, African, H.A. (Tagetes erecta)

Pkt., 6d.; 1/2-oz., 3/.

Guinea Gold—Beautiful golden yellow double flowers with fringed petals. Plants grow to 3ft. tall, producing numerous blooms.

Lemon Ball, all Double—Petals heavily rolled, and flowers ball-like in form; very beautiful. orange.

Orange Ball, all Double—A rich, brilliant orange.

Marigolds, French, H.A. (Tagetes patula).

Giant Tree—(4ft. high). Hardy and very free flowering. Good cut flower line. Pkt., 6d.; 1/2-oz., 2/.

Legion of Honor—Bright single flowers. Pkt. 3d.

Tall Double Mixed—All colours. Pkt. 3d.

Marguerite Daisy (see Chrysanthemum Frutescens).

Mathiola Bicornis (Evening Scented Stock). 3d.

Fragrant pink and lilac flowers, opening at night.

Mesembryanthemum, H.P.

Tricolor Mixed—Trailers, having flowers of various shades of pink, carmine and red. Excellent for rockery work, and are at their best during hot weather. Pkt., 6d.; 1/2-oz., 3/6.

Mignonette, H.A.

Goliath—Robust growth, spreading form; the large spikes frequently measure five inches in diameter. Pkt. 6d.

Machet—Deliciously scented grey flowers. Pkt. 3d.

Golden Queen—Florets golden yellow; scented. Pkt. 3d.

Fordhook Mixture—Embracing some of the finest types. Pkt. 3d.

Mimulus (Musk), Tender Pot Plants.

Tigrinus—Monkey Musk; annual; flowers tiger spotted and blotched. Pkt. 6d.

Nasturtium, H.A.

Double Hybrids Mixed—See novelties. Pkt., 1/.

Golden Gleam, Double Scented—Its beautiful folds of gold are not only of fine form, but are actually scented, a delicious sweet musk-like odour. 6d. pkt.

Gorgeous Mixture—Dwarf; brilliant flowers. This mixture includes all of the showy varieties of dwarf Nasturtiums with both light and dark foliage. Pkt., 3d.; oz., 1/.

Fordhook Favourite Mixture—A truly giant race, comprising a large variety of colours in flowers of fine size. Pkt. 3d.

Nemesia, H.A. 6d.

Dainty, compact growing annuals, flowering freely in many colours—white, pale yellow, purple, blood-red, rich orange, carmine, pink, rose, red, scarlet and crimson, spotted and blotched.

Nemophila, H.A. 3d.

Mixed—Shade loving plants.

Nigella, H.A. (Love-in-a-mist), 3d.

Miss Jekyll—A beautiful double cornflower blue.

Double Mixed—Blue and White flowers peeping from beautiful graceful foliage.

PANSIES, H.A.

Sow from January to April. Plant out February to August.

Jumbo Mixed—Enormous blooms on long stems. Plants very vigorous and quick growing. Pkt., 5/- and 10/-.

Super Swiss Giants (Roggli), Mixed—The world's best exhibition strain of giant Pansies. This is a new type of pansy often measuring up to $3\frac{1}{2}$ ins. across, with velvety petals and a wide range of colourings and markings. It includes the richest reds, coppers, bronzes and yellows together with the rose pinks and those beautiful light blues so delightful in the pansies. The stems are very long and stiff, and the flowers hold their size right through the season. Pkts., 2/6 and 5/-; small pkt., 1/6; $\frac{1}{2}$ -oz., 7/6.

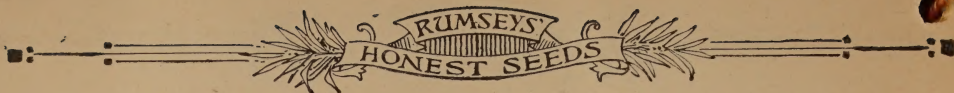

Mastoden Masterpiece, Mixed—A particularly fine strain of the frilled and blotched Masterpiece type. Blooms of enormous size on long stems suitable for cutting. Pkts. 1/6, 2/6 and 5/-.

Mastoden Aces, Mixed—This is our popular special mixed Mastoden reselected and several new colours added. For large beds for the house or for cutting there is none to equal it. Pkts., 1/- $\frac{1}{2}$ -oz., 4/6; $\frac{1}{2}$ -oz., 7/6; $\frac{1}{2}$ -oz., 13/6; 1-oz., 25/-.

Bedding Pansies—Where colour schemes are desired bedding pansies in various shades give pleasing results. We have sky blue, dark blue, cardinal, apricot, pure yellow, Lord Beaconsfield—deep violet and white—and Bedding Mixed. Pkt., 6d.; $\frac{1}{2}$ -oz., 2/6.

Mastoden Pansies.

Pelargonium Zonale, H.H.P.

Floradale Fancy.—The flower trusses of this fine variety are from 4 to 6 inches in diameter, and the individual flowers are often $1\frac{1}{2}$ inches across. This strain is one of the finest obtainable, and the variation in colours is very large. Pkt. 1/.

Pentstemon, H.P.

Floradale Fancy.—A most beautiful collection of this Gloxinia-like flower, producing large flower spikes of beautiful colours, both light and dark, and twice the size of the older strains. Pkt. 1/.

Portulacca, H.H.A.

Double Mixed.—A fine strain, with very brilliant flowers in many colours. Fine for bedding. Pkt. 1/.

Giant Parana.—A quite distinct colour from other portulaccas. Bright bluish rose, making a most effective display through the summer. Pkt. 6d.

Single Mixed.—Various colours. Pkt. 3d.

Polyanthus, H.P.

The old favourite of English gardens. Extra choice mixture. Pkt. 1/.

Primula, H.H.A.

Malacoides.—Princess Mary, deep rose. Largely used for edging or bedding in the garden, particularly in the coastal and warmer portions of New South Wales. It makes a very fine, showy bed, and does not grow too large. Pkt., 6d.; $\frac{3}{4}$ -oz., 3/.

Sinenst.—The Chinese primula is hardier than the English primrose in our warm climate and makes a very fine pot-plant for winter flowering or for bedding. It does best in a shady position. Mixed colours. Pkt. 1/.

PETUNIAS, H.P.

See also novelty pages.

Large Flowering Defiance.—Flowers up to 5 inches in diameter, indescribably rich and varied. Pkt. 2/, 5/, and 10/.

Fluffy Ruffles.—A fine ruffled strain of large flowered petunia in mixed colours. Pkt. 1/6.

Rosy Morn.—A beautiful flower with a silvery white throat shading to rose pink on the edges. Pkt., 6d.; $\frac{3}{4}$ -oz., 3/6.

Enchantress Mixture.—A mixture of all the best varieties of bedding petunia. Pkt., 6d.; $\frac{3}{4}$ -oz., 2/6.

PHLOX DRUMMONDI—H.A.

Sow from early spring to late autumn in the garden where required. A pretty effect is obtained by sowing patches of the various colours desired wherever space is available. A few seeds are sown at each spot at 9 to 12-inch spacings.

Separate Colours: Apricot, chamois-rose with a white eye; Fordhook Crimson; Fordhook Lilac, bright soft lilac with white eye; Splendens, rich red with small white eye; Giant White; Violet. Pkt., 6d.; $\frac{3}{4}$ -oz., 2/; oz., 6/.

Finest Mixed.—A blend of the tall annual phlox on the above list. Pkt., 6d.; $\frac{3}{4}$ -oz., 1/6; oz., 5/.

Starred and Fringed.—A large variety of these quaint hairy looking flowers in many colours. Pkt., 6d.; $\frac{3}{4}$ -oz., 2/.

Pyrethum (see Chrysanthemum).

Ranunculus. (Hardy Bulb.)

Giant Hybrids Mixed.—A beautiful new strain of this splendid spring flowering bulb. 6d.; $\frac{3}{4}$ -oz., 1/6.

Rhodanthe, H.A. 6d.

Mixed—Everlastings in various colours.

Rosmarinus, H.P.

Officialis.—Rosemary. Pkt., 6d.

Salpiglossis, H.H.A. (Velvet Flower).

Emperor.—Very large, petunia shaped flowers with brilliant veinings. Many colours. 6d.; $\frac{3}{4}$ -oz., 1/3.

Salvia, H.P. (Flowering Sage).

Splendens-Bonfire.—The well-known, startlingly brilliant border bush. 6d.

Farcinacea.—Blue. 1/.

Scabiosa, H.A. & P. (Pincushion).

The Pincushion or Mourning Bride are amongst the most useful and hardy of cut flowers.

Tall Double Separate Colours: Canary; Peach Blossom, pink; Shasta, White; Rose; Black, blackish purple; Red; Azure Fairy.

Pkt., 6d.; $\frac{3}{4}$ -oz., 1/.

Tall Double Mixed.—Pkt., 3d.; $\frac{3}{4}$ -oz., 1/.

SCABIOSA COLLECTION.

1 packet each of 7 separate colours for 2/6.
Post Paid.

Caucasia.—A perennial with flowers of a very pleasing light blue. Pkt., 6d.

POPPIES—H.A.

Sweet Briar.—A new poppy of the double begonia flowered shirley type. Deep rose pink. Sow in garden where required in autumn or spring. Pkt., 6d.; $\frac{3}{4}$ -oz., 2/.

Begonia Flowered, Mixed.—Double flowers of many colours. Pkt., 3d.

American Legion (New Shirley).—The bright scarlet-red blossoms are most brilliant in full sunshine, a popular shade. Pkt. 3d.

Shirley Mixed (Re-selected).—All who have admired the delicate beauty of the Shirley Poppy will be delighted with this re-selected strain, of the finest colours. Pkt., 3d.

Double Carnation Flowered.—Of dazzling richness, and in great variety of colours, white, rose, scarlet, lilac, steel blue, and mahogany.

Mixed, Pkt., 3d.

Fordhook Fairies.—Beautiful Double Poppies. Pkt. 3d.

ICELAND POPPIES

This beautiful variety of perennial poppy has proved very suitable for bedding, and cut flowers treated as an annual in our climate.

New Mammoth Sunbeam Mixed.—An extra fine strain of Iceland Poppy, particularly fine for cut flowers. The long stems and large blooms are quite distinctive. Pkt., 1/; small pkt., 6d.; $\frac{3}{4}$ -oz., 5/.

Selected Pink Shades.—Blend of all the best shades of pink. Good for cutting. Pkt., 1/; $\frac{3}{4}$ -oz., 4/6.

Sunbeam Giant Orange.—A fine new cut flower-growers' poppy, not only larger than ordinary, but the stems are long, and the flowers have up to eight petals, giving them a double appearance. There are various shades of orange blending well together.

Pkt. 1/; $\frac{3}{4}$ -oz. 3/; small pkt. 6d.

Shasta Daisy. (See Chrysanthemum.)

Schizanthus (Butterfly Flower).

"The poor man's orchid."

Giant Hybrids—An exceptionally fine strain growing to 2ft. tall with a profusion of gaily coloured blooms. Pkt. 1/.

Wisetonensis Hybrids—Most beautiful pot plants for the verandah or bush house; great variety of flowers. 3d.

STATICE, H.A.—(See Lavender.)

Perezii—Rich Blue perennial. Pkt. 6d.

Caspia—Lilac, very fine stem and flowers. Pkt. 1/.

Bonduelli—Yellow. Pkt. 6d.

Latifolia—Lavender, perennial. 1/.

Suworowii—Russian Rat Tail—Rose. 6d.

Sinuata New Hybrids Mixed—Pkt. 6d.

Sinuata—True Blue—Pkt., 6d.; oz., 1/6.

Stockesia, H.P. 6d.

Cyanus (Cornflower Aster)—A very fine plant producing an abundance of lavender flowers.

STATICE COLLECTION.

1 packet of each of 6 types for 3/.

Sunflower—See Helianthus.

Sweet William, H.P. (Dianthus Barbatus)

The old fashioned Sweet Williams should be in every garden, and particularly in the cooler districts, where they are very hardy. They produce the greatest variety of colour imaginable, and keep on flowering for a long time.

Annual New—An entirely new type of Sweet William. Blooms freely first year from seed sown in early spring. Includes a wide range of colours. 6d.

Double Mixed—Many colours. Pkt., 6d.

Choice Single—Mixed colours. Pkt., 3d.

Double Stocks

Sow January to April. In cold mountain climates early varieties may be also sown in early spring. Plant out in rich, well-drained soil.

We do not offer any cheap seed of this favourite flower; it is difficult enough to secure a supply of doubles from the best seeds without spending time and money on what may prove a disappointment.

Large Flowering French Double Ten Weeks.

A mixture from a collection containing blood red, bright rose, brown, red, carmine red, chamois, copper carmine, copper rose, dark blood red, dark violet, grey red, light violet, pure white, rosy white, and violet rose. Pkt., 6d.; ½-oz., 3/6.

Mammoth Beauty of "Nice"—These are the finest of all the stocks for cut flowers: they produce a very large percentage of double flowers, and although they will frequently flower the second year, they are best treated as annuals.

Colours: White, Rosy Lilac, Light Blue, Flesh Pink, Old Rose, Blood Red, Deep Rose, Crimson, Canary and mixed. Pkt., 6d.; ½-oz., 2/6; ¼-oz., 4/6.

MAMMOTH NICE COLLECTION

1 packet each of the 9 separate colours for 3/.

Giant Perfection Double—A fine group, especially for florists. Very early and free blooming. Produces a high percentage of doubles. We can supply Rose, Silvery Lilac, Canary Yellow, Blood Red, Snowdrift, Flesh, Violet and mixed. Pkt., 6d.; ½-oz., 2/6; ¼-oz., 4/6.

GIANT PERFECTION COLLECTION.

packet each of the above seven separate colours for 2/6.

Double Giant Imperial—Also known as Improved Bismarck. Of branching habit, growing 24 to 30 inches tall. Produces a high percentage of doubles.

Colours: Golden Rose; Antique Copper; Rose, Purple; Shasta, white; Buttercup; Chamois Rose; Mixed. Pkt., 1/; ½-oz., 3/6; ¼-oz., 6/.

GIANT IMPERIAL COLLECTION.

1 pkt. of each, 6 separate colours, for 4/6.

Brompton—Extra choice. One of the best varieties for flowering for several years in succession. Mixed. Pkt., 6d.

Thirty-five

Sweet Peas

EARLY OR WINTER FLOWERING SPENCERS

For best results sow from January to June and have blooms throughout Winter and Spring

1935 Novelties.

Pkt., 1/6; ½ oz., 3/-.

Monterey—Unusually large flower of perfect contour. Clear geranium pink, flushed salmon. Vigorous grower. Long sturdy stems.

Success—Deep rose pink but much stronger growing than most others in this colour class. Long stout stems.

Memory—A clear rosy lavender which keeps its colour well. Blends well with pink shades. Good stems.

Peachblow—An exquisite new ruffled sweet pea. Clear rose pink on cream ground; flowers are large, well formed and beautifully frilled.

Recent Introductions

Pkt., 1/6; ½ oz., 3/-.

Lavanda—Extra large blooms, perfectly spaced on long, strong stems. A vigorous grower, and the pure clear lavender blooms hold a uniform colour from the time buds open until full bloom.

Exposition Pink—A gorgeous rich pink named in honour of "A Century of Progress," Exposition in Chicago. The large waved blooms are well spaced on long, stout stems. Vigorous grower and very prolific. A marvel under artificial light.

Attraction—Clear salmon-begonia pink on light cream ground. Very similar to Springsong, introduced a few years ago, but larger, longer in stem, and better spaced blooms.

General List

Pkt., 6d.; oz., 3/6; except where stated.

Miss Annie Laurie—The richest, pure, rose pink Sweet Pea ever introduced. A marvel for cutting, having long stems, and it is a continuous bloomer.

American Beauty—The raiser's description is:—"The strongest-growing, long-stemmed, largest Sweet Pea ever introduced." A very fine, rich crimson variety.

Snowstorm—This is by far the finest of all white winter flowering varieties. The flowers are extra large and of fine form.

Miss Louise Gude—A charming shell-pink.

Orange King—The richest and deepest orange-coloured winter sweet pea introduced.

Superior Pink—Beautiful rose pink, slightly flushed with salmon and without blue tints.

Vulcan—Dazzling scarlet cerise. Popular variety. The whole flower is suffused orange.

Chevalier—A true rose colour with just a suspicion of yellow toward the base.

Burpee's Lavender—Combination of length of stem, size of flower, purity of colour, and vigour makes this great for cutting.

Bluebird—This is a charming shade of blue, large and exquisitely waved. Blooms continuously.

Glitters—Glitters and scintillates, with a fire-like sheen radiating over the flowers. The standard is a bright, fiery, orange scarlet.

Sunray—Soft orange cerise on cream ground; recommended.

Gleam—Large flowers of geranium pink, with an effusion of cherry pink.

Oriental—Clear, deep cream blooms on long stems; many fours. Many standards are duplex, so that smaller number necessary to make a bunch.

Flamingo—The broad and well-waved standard is light orange with a suffusion of bright salmon. The wings are orange-pink.

BEST 15 COLLECTION

1 packet of each of the above for 5/-.
½ oz. of each of the above for 20/-.

Early Greeting—An early lavender, large flowers, nicely waved, with four blooms on long stems.

Marine—Largest true blue introduced. Standard over 2½ inches; good stems. Cert. of merit.

Giant Rose—Immense rose-coloured flowers, as many as five on a stem.

Lavender King—A rich, true, deep lavender throughout. The fragrant flowers are of large size and beautifully waved form.

Grenadier—Large flowers of rich poppy scarlet; long stems.

Red Bird—Uniform bright crimson red with velvety sheen.

GRAND COLLECTION

1 packet each of 25 varieties and 1/- packet
Boronia Mixed, for 10/-.

Mixtures

Boronia Special, Mixed—An extra choice mixture of the best of our novelties and recent introductions. Packets, 1/6; oz., 5/6.

Sunrise Mixed—A good mixture of the best American seeds. Packets, 6d.; oz., 2/6.

Royal Show, Mixed—Without doubt the best for the money. Specially made up by us from named varieties. Packets, 6d.; oz., 2/6.

SWEET PEA CULTURAL LEAFLET SUPPLIED
ON REQUEST.

SWEET PEAS (Continued).

LATE FLOWERING SPENCERS

These are still the best sweet peas for spring sowing in the mountains and cooler parts of Australia.

Will produce magnificent flowers right up to Christmas from Spring planting. From later planting they will keep a succession until late Autumn.

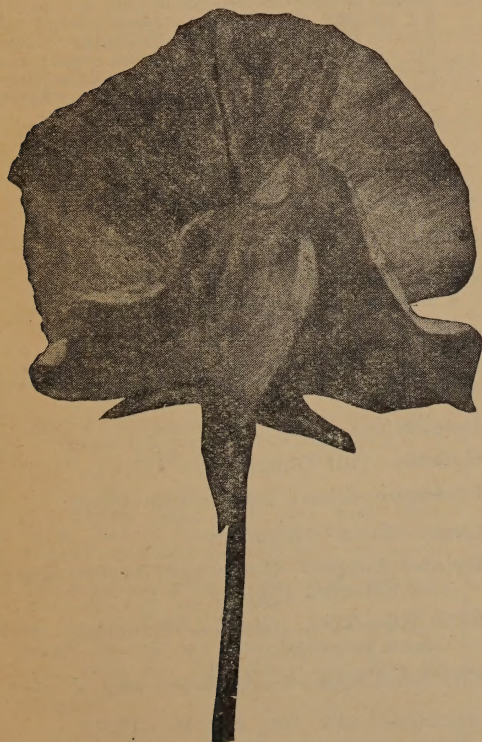

In coastal districts sow in April for Spring blooms. Price: Packets, 6d.; oz., 2/.

Pinkie, deep pink. Large blooms, long stems; **Youth**, beautiful picotee on white; **Fiery Cross Improved**, deep cherry red, suffused orange; **King White**, remarkable for the glistening purity of its whiteness and perfect finish of its mammoth size flowers; **Picture**, a charming combination of cream and pink shades with a deeper flush on the wings. Large, well-rounded, and beautifully waved blooms; **Mrs. Tom Jones**, a bright delphinium blue, with flowers of large size and substance; **Powerscourt**, a pure lavender variety with flowers of mammoth size, well placed on long stems; **Royal Scot**, brilliant and lustrous orange-scarlet flowers with a deep cerise sheen; **Charity**, rich brilliant crimson; **Ascot**, shell pink; **Tom Webster**, mid blue.

Burpee Blend

Summer flowering Spencers. A very fine mixture of all the best sweet peas of this type. There are hundreds of varieties in the collection from which this mixture is made.

6d. per packet; oz., 1/6.

Late Flowering Collection

1 Packet of each of 11 separate colours for 4/.

Thalictrum (Herb. P.) 6d.

Dipterocarpum (Lavender shower bush).—Herbaceous perennial shrub, with ornamental leaves and lavender or purple flowers on long stems. It makes a good showy verandah plant.

Tithonia

Speciosa (Mexican Sunflower), grows 6 to 8 feet tall with a mass of bright orange-red blooms with cone-like centres. Pkt., 6d.

Torenia, T.A.

Beautiful annuals desirable as pot plants or for hanging baskets. A fine border plant. Height, 6 inches.

Bailloni—Golden yellow, red throat. Pkt., 2/6.

Fournieri Alba—Cream, tinged pale pink. Pkt., 1/6.

Fournieri Grandiflora—Dark blue, yellow throat. Pkt., 1/.

Viola, H.A.

The old-fashioned Heartsease or Viola has come back into favour again, it makes a fine winter flowering bedding or border plant and does well in summer in the highlands. The best colours are Apricot, 1/6 pkt.; Blue Gem, 1/6 pkt.; Choice Mixed, 6d. pkt.

Verbena, H.P. (Trailing Plant)

See also novelty pages.

Large Flowered (Hybrida Grandiflora), **Royale**, rich deep royal blue, large creamy yellow eye. Pkt., 6d.

Etna, intense geranium red, small creamy yellow eye. Pkt., 6d.

Lavender Glory, pure lavender. Pkt., 6d.

Giant Mixed—Pkt., 6d.; ½-oz., 2/.

VERBENA COLLECTION.

1 Packet of each of 3 separate colours, 1/3

Venidium

See novelty pages.

Wallflower, H.B. & H.A.

Magnificent—Prize Double, Mixed. 1/.

Parisian Single Mixed—Annual. Pkt. 6d.

Double Wonder Mixed—Annual, blooms 5 months from sowing. Pkt. 6d.

Jumble Packet

A mixed packet of flower seeds containing over 200 varieties. Suitable for children's gardens and waste corners. Pkt., 6d.

Zinnia, H.H.A.

See also novelty pages.

Sow in spring after all frost danger is over and soil has commenced to warm up. Sowing may be continued up to December and January in mild climates. Sow either in the garden where required or in seed beds or boxes for transplanting.

GIANT DAHLIA FLOWERED—Flowers of immense size, born on good sturdy stems. Plants make a compact bush 2-ft. tall. A decided improvement on old types of Zinnia.

Colours: Scarlet Flame (New), Exquisite rose; Dream, deep lavender; Canary Bird, primrose; Polar Bear, white; Crimson Monarch; Oriole, golden orange and Special Mixed. Pkt., 6d.; $\frac{1}{2}$ -oz., 2/-; oz., 6/-.

Dahlia Flowered Collection

6d. pkt. of each 7 colours for 3/-

NEW GIANTS OF CALIFORNIA—A magnificent new strain of Zinnias, having large symmetrical flowers. A very vigorous type, bushes growing 3 to 4 feet tall and 2 to 3 feet in diameter. **Colours:** Enchantress (Rose Pink)—Scarlet Gem, Rose Queen, Orange King, Purity-white, Golden Queen and Mixed. Pkt., 6d.; $\frac{1}{2}$ -oz., 2/-; oz., 6/-.

Giants of California Collection

1 packet each of above 6 separate colours for 2/6.

CUT AND COME AGAIN—A new type for cut flowers. The more they are cut the more they bloom.

Pinkie—Dainty rose pink blooms on long stems. Pkt., 6d.; $\frac{1}{2}$ -oz., 1/6; oz., 4/6.

Picotee Delight—Salmon rose. Petals beautifully curled and picotee-edged. Pkt., 6d.; $\frac{1}{2}$ -oz., 3/-; oz., 10/-.

GIANT MAMMOTH MIXED—Glorious huge flowers in bright colours. Fine for cutting. Pkt., 6d.; $\frac{1}{2}$ -oz., 1/-; oz., 3/6.

DOUBLE POMPOM, or LILLIPUT—One of the very best types for bedding or for cutting for the house. The new colours now available are delightful grown separately. The colours we offer are salmon rose, scarlet gem, lilac gem, rose gem, golden gem, crimson gem and special mixed. Each Pkt., 6d.; $\frac{1}{2}$ -oz., 1/6.

POMPOM OR LILLIPUT COLLECTION

One 6d. Packet of each of 6 separate colours for 2/6.

MEXICAN—This is quite a new race of small Zinnias of great beauty. For bedding and bordering purposes they are unsurpassed. While sufficiently of the form of the old Zinnias to identify them, they are dwarf, and quite distinct from them and they vary in colour and markings, being mostly yellow and orange, but many having quite distinct purple markings. Pkt. 6d.

Some Good Cut Flower Lines

For Spring and Early Summer Sowing:

Antirrhinum—Giant large flowering and Majestic.

Asters—Crego, Improved Californian Giant and American Beauty.

Delphinium—Gold Medal and Chinensis types.

Gladiolus—Fordhook Hybrids.

Scabious—Large double varieties.

Zinnia—Californian Giants, Cut and Come Again, Pomponne, etc.

For Late Summer and Autumn Sowing:

Antirrhinum.

Delphinium.

Godetia—Tall Double.

Larkspur—Giant Delphinium types.

Lupin—Pearl varieties.

Iceland Poppies—Sunbeam Giant Orange and Selected Pinks.

STOCKS—Nice, Giant Perfection and Giant Imperial.

SWEET PEAS—Early flowering varieties.

Where bulk prices are not given in catalogue ask for special quote.

Seeds of Climbing Plants

Aristolochia Elegans

Calico Flower—Sometimes called Dutchman's Pipe. Seeds saved from famous plants at Kuranda (North Q'land) railway station. Sow in early summer. Pkt., 6d.

Bignonia Tweediana, H.P.

Chicken's Claw—Large yellow trumpet flowers and long seed pods. Evergreen. Pkt. 6d.

Boston Ivy (Ampelopsis Veitchii), H.P.

The well-known deciduous vine which enlivens the autumn landscape with its gay coloured leaves. Pkt. 6d.

Cardinal Climber (Ipomea cardinalis), H.A.

The vines grow rampantly, and are always covered with a wealth of the beautiful blossoms; as fast as one flower dies, there is another to take its place. Seed, Pkt. 6d.

Canary Bird Creeper, H.H.A.

A handsome climber with handsomely fringed yellow flowers and delicate foliage. Pkt. 6d.

Clematis Aristata, H.P.

Dainty white flowers. Pkt. 1/.

Cobaea Scandens, H.P.

A rapid growing climber, with large bell-shaped flowers of a deep purple colour. Pkt. 6d.

Dolichos, H.P.

Lignosus—About the most rampant perennial climber and freest bloomer there is; useful for covering sheds. Pink, White. Pkt., 6d.

Eccremocarpus, H.P.

A very fast, free-flowering creeper, graceful and beautiful. Pkt. 6d.

Kudzu Vine, H.P. 6d.

Grows to a great length; both useful and ornamental.

Lathyrus Latifolius

Perennial Pea. Live year after year, bearing beautiful clusters of flowers; mixed. Pkt. 6d.

Lathyrus Pubescens

A beautiful blue perennial pea. Free climber. Pkt. 1/.

Linaria Cymbalaria

Kenilworth Ivy. Trailing perennial. Used for hanging baskets. Pkt. 6d.

Mandevilla, H.P.

A hardy climber, with large snow-white jessamine like flowers, deliciously scented. Pkt. 6d.

Mediola Asparagoides 6d.

Smilax—A very graceful climber, the foliage useful for cut flowers. Pkt. 6d.

Mina Lobata

A truly gorgeous flowering annual vine; flowers cream and red. Pkt., 6d.

Moonflower (Calonyction aculeatum)

Immense sky-blue flowers cover the plant from top to bottom in a very short time from planting. Perennial 6d.

Morning Glory, H.A. (Ipomea purpurea)

Tall Mixed—Shades of light blue, purple, pink and variegated. Packet 6d.

Rose Marie—Semi-Double, delicate rose pink. Pkt., 6d.

Morning Glory, H.A. (Ipomea hederacea.)

Japanese Frilled and Fancy Mixed. Very quick growing. Pkt. 6d.

Snail Creeper, T.P.

A free growing, hardy useful vine; covers fences with a leafy growth, and curious snail-like flowers. Pkt. 1/.

Tacsonia, H.P.

Van Volxemi—Crimson scarlet blooms resembling passion flowers. Pkt., 1/.

Thunbergia Alata, H.P.

Black-Eyed Susan—Mixed colours, white, yellow and buff, with black centres. Pkt. 6d.

Mixed Climbers

A generous packet, containing a good assortment of beautiful climbers. Pkt. 1/.

WONDEFUL FLOWERS!

A Few Unsolicited Testimonials

FROM LETTER FROM "W.P.H.," FORTITUDE VALLEY, BRISBANE, QLD.,
SEPTEMBER 4th '34

"You will no doubt be interested to learn that blooms grown from your Swiss Giant Pansy Seed, purchased at the beginning of this year, accounted for three firsts, one second and champion at the recent Brisbane Show, with numerous prizes at the smaller Floricultural shows in our suburbs.

"These results were obtained without any special treatment and without thinning in any way, while the beds are at the time of writing, producing masses of huge, colourful blooms."

FROM MR. "T.McN.," CORDEAUX RIVER, MT. KEMBLA, 25th
SEPTEMBER, 1934.

"This year's Swiss Giant pansies are much better than last year's and those who saw the blooms last year said they were the best they had seen. I raised 180 plants from the 2/6 packet this year and the largest flower measured exactly 4 inches across, while nearly all the early flowers went over 3 inches. The stalks are up to 7½ inches long and no two plants in the 180 produce similar blooms. In my opinion, there is no other strain of pansies to equal these long-stemmed aristocrats of the pansy world."

Native Plant Seeds

Sow in well drained beds of sandy loam and keep shaded with brush or hessian until established. Soak Acacia seeds overnight in hot water before sowing to soften hard seed coat.

Most varieties listed are stocked regularly each season, but some have to be collected as required.

Acacia

Full List of Acacia on request.

- Accola**—15ft.—Very ornamental and shapely. Pkt., 6d.; oz., 3/6.
Buxifolia (Box Leaved) 10ft.—Very suitable for tall hedges. Hardy. Pkt., 6d.; oz., 3/6.
Dealbata (Silver Wattle) Similar to black wattle in growth, but young foliage has an ashy hue. Pkt., 6d.; oz., 1/6.
Discolor—15ft.—Sunshine Wattle. Pkt., 6d.; oz., 2/6.
Elata—60 to 80 ft.—Cedar Wattle, very handsome tree in flower and foliage. Pkt., 6d.; oz., 3/6.
Elongata—10ft.—Handsome shrub. Pkt., 6d.; oz., 3/6.
Gladiformis Does well in subtropical climates. Pkt. 1/6; oz., 5/6.
Iteaphylla—20ft.—Very symmetrical tree from Kangaroo Is. Hardy. Pkt., 6d.; oz., 5/6.
Kettlewellii—10ft.—Rare shrub, exceptionally hardy, growing on rough mountain-sides at 2,000 ft. in N.S.W. Recommended. Pkt., 1/6; oz., 6/6.
Leprosa—8ft.—Hanging blossoms. Pkt., 6d.; oz., 3/6.
Obtusata—6 to 8 ft.—A shrub of great possibilities, producing a mass of bloom in the middle of winter in mountain districts of N.S.W. Recommended for indoor work. Pkt., 6d.; oz., 2/6.
Pubescens—12ft.—One of the most graceful varieties. Unexcelled for indoor work. Seed scarce. Packets only, 2/6 and 5/6.
Rubida—8-10 ft. Red Leaved Wattle. Found growing on rocky hillsides at high altitudes in N.S.W. Pkt. 6d.; oz., 3/6.

Actinotis

Helianthi—2ft.—Flannel Flower. Herbaceous perennial white flowers. Pkt., 1/6.

Angophora

Lanceolata—100ft.—Good shade tree. Pkt., 6d.; oz., 3/6.

Anigozanthus

Manglesii—Kangaroo Paw—Small plant with handsome velvety green and red flowers. Pkt. 1/6.

Araucaria

Bidwillii—150ft. Queensland Bunya Bunya, 10 seeds 1/6, post paid in Australia; 100 seeds 6/6; 1000 seeds 50/6, freight extra.

Boronia

Megastigma—See page 27.

Brachychiton

Acrifolius—50ft.—Flame Tree. Pkt., 6d.; oz., 3/6.
Diversifolia—60ft.—Kurrajong. Pkt., 6d.; oz., 2/6.

Callistemon

Lanceolatus—8ft.—Crimson Bottle Brush. Pkt., 6d.; oz., 3/6.

Ceratopetalum

Gummiferum—30ft.—N.S.W. Christmas Bush. Excellent for garden specimens or tall hedges. Pkt., 1/6; oz., 5/6.

Callitris

Muelleri—35ft.—Mueller Pine. Pkt., 6d.; oz., 2/6.
Calcarata—80ft.—Black Murray Pine. Pkt., 6d.; oz., 2/6.
Robusta—100ft.—Western White Pine. Pkt., 6d.; oz., 2/6.
Cupressiformis—40ft.—Very ornamental. Pkt., 6d.; oz., 2/6.

Casuarina (Australian Oaks)

Several varieties. Pkt., 6d.; oz., 2/6.

Eleocarpus

Cyaneus—30ft.—Blueberry Ash or Lily of the Valley Tree. Extremely ornamental and will stand close cutting for hedge purposes. Pkt., 6d.; oz., 2/6.

Eucalyptus

We can supply over 60 varieties of Australian gum trees. Following are most popular:
Corynocalyx—100ft.—Sugar Gum. Planted for breakwinds and timber. Pkt., 6d.; oz., 2/6.
Sideroxylon—120ft.—Ironbark. Timber of great strength. Pkt., 6d.; oz., 3/6.
Large Flowered Eucalyptus including *E. ficifolia* (Scarlet), *E. calophylla rosea* (Rose) and *E. Leucocylon rosea*, 1/6 pkt.

Grevillea

Robusta—60ft.—Silky Oak. Pkt., 6d.; oz., 4/6.
 Other Varieties also available, 1/6 packet.

Kennedya

Monophylla—A native trailer with sarsaparilla-like leaves and blue flowers. Perennial and hardy. Pkt. 6d.
Rubicunda—A red flowering variety. Pkt. 6d.

Melaleuca

Flowering Tea Trees, 1/6 pkt.

Macadamia

Ternifolia—25ft.—The Australian Nut. The world's finest nut, useful and ornamental. Hand picked selected seeds. 1/2 lb., 1/6, post paid; 1 lb., 2/6; 100 lbs., 1/6 lb. Freight extra.
Integrifolia—Price on application.

Macrozamia

Spiralis—Burrawang Palm. One of the most ornamental Cycads. 10 seeds 1/6, 100 seeds 15/6, post paid.

Sterculia

See *Brachychiton*.

Syncarpia

Laurifolia—200ft.—Turpentine tree. Pkt., 6d.; oz., 3/6.

Tecoma (Wonga Vine)

Native creeper. 6d.

Telopea

Spectiosissima—10ft.—N.S.W. Waratah. Glorious shrub for specimens or group planting. Pkt., 1/6; oz., 5/6.

Tristania (Lophostemon.)

Conferta—150ft.—Brush Box. Shade and shelter tree. Pkt., 6d.; oz., 3/6.

Spray Mixtures

For control of diseases and insect pests.
Freight or postage extra. See Page 45.

"Arsinette"

1 oz. makes 2 gals. spray. The best arsenate of lead powder. Used for control of all chewing insects. Being poisonous must not be used on fruit or vegetables just prior to harvesting.

4oz. tins, 1/3; 8oz. packets, 1/9; 1lb. packets, 2/9; 4lb. bags, 6/-.

"Alboleum"

Emulsified White Oil. Use for control of sucking insects such as thrips, red spider, scale, aphids, etc., and in conjunction with "Arsinette" for codlin moth.

½ pint, 1/6; 1 pint, 2/6. Weight packed under 2lb. for 1 pint.

"Katakilla"

An excellent spray for all classes of insects. Good control for cabbage moth grubs in home gardens. Non-poisonous.

Small packet to make 2½ gallons, 9d.; carton containing 4 packets. for 2/6. Postage 2d. packet; 5d. carton extra.

"Black Leaf 40"

Nicotine sulphate. Very concentrated. Use for control of sucking insects.
½lb. tins, 5/-.

"Snuffotine"

The cheapest and safest tobacco preparation. Used either alone or with equal quantities of lime it gives excellent control of all grubs, snails, slugs, aphids and other insects. Dust on freely in early morning while plants are wet with dew. 1½lb. boiled in a gallon of water may be used as a spray.

3d. lb.; 7lb., 1/6; 14lb., 2/6; 28lb., 3/6; 1cwt., 10/6. Freight or post extra.

Postage extra on 1lb.: N.S.W., 1/-; Queensland, Vic., and Tas., 1/6; other States, 2/-.

Descriptive circular post free.

"Harola" (Lime-Sulphur)

A specially prepared mixture effective for control of small sucking insects such as thrips and mite and also an excellent spray for prevention of fungus diseases on potatoes and fruit trees.

Pint, 1/3; quart, 1/9; ½ gal., 2/3; 1 gal., 3/6. Weight when packed, 4lb. to 1 quart.

"Blighty" (Burgundy Mixture)

Cannot be mixed with arsenate of lead as burning of foliage may result. "Blighty" is a good fungicide for prevention of late blight in potatoes and tomatoes, and leaf curl in peaches. Also for control of fungous diseases on all classes of fruit trees, vegetables and flowers. Being in powder form it has been proved to be one of the very best preparations for treating seed wheat for smut.

1/6 lb.; 4lb., 5/-; 10lb., 10/-.

Postage extra on 1lb.: N.S.W., 1/-; Queensland, Vic., and Tas., 1/6; other States, 2/-.

Descriptive circular post free.

SPRAYING AND DUSTING IMPLEMENTS

"Rega" Bucket Spray Pump

Handy sprayer for small farms and home gardens. Adjustable nozzle, making it suitable for all spray mixtures, also for white-washing, washing cars, windows, etc. Strongly made in two sizes: A., 27/6; B., 24/6; freight or postage extra. Weight packed, 8lbs.

"Rega" Knapsack and Pneumatic Sprayers

Price on application.

"Rega" Hand Dust Gun

Very suitable for applying dusts on small areas. Three sizes: 3/9, 5/3, and 14/-; postage extra. Large size, 3lbs. packed.

"Rega" Knapsack Duster

Strongly built machine for market growers. Price on application.

Page Forty-one

Strawberry Plants

APRIL TO SEPTEMBER

All varieties perfect flowers except where mentioned otherwise.

We would advise our clients in all cases to choose two or more varieties of strawberry when planting, for the sake of pollination. Some sorts are naturally self-fertile, while most sorts set their fruit better when another variety is grown near them.

Our packing is so designed that we send plants safely to Africa and the Pacific Islands, or to any part of Australia or New Zealand.

TWO SPECIALS FOR 1935

2/6 doz., 4/6 for 25; postage extra.

Aroma

An old variety in southern U.S.A. bearing round conic to short wedge-shaped berries, firm bright crimson on surface with light red flesh. Mid-season to late.

Marshall

A recently introduced variety from U.S.A., where it has been grown extensively for many years and is one of the leading varieties for pulping for use in the ice cream trade.

OTHER POPULAR VARIETIES:

PRICES (Freight or Postage Extra)

1 doz. one variety, for 1/6; 1 doz. each 3 varieties, for 4/-; 1 doz. each 6 varieties, for 6/-; 25 one variety, 2/6; 25 each two or more varieties, 7/- 100; 50 each one or more varieties, 5/- 100.

Allow extra for postage and packing. 6d. doz., 1/- for 25, 1/6 100 in N.S.W.; 1/- 100 extra to other States and Irrigation Areas.

Bellmar

One of the best of new sorts. Vigorous grower producing large conic shaped bright red berries from early spring until well into summer.

Brandywine

This is not a new variety, being a most popular market variety in America for over 30 years. The true variety does not appear, however, to have been previously introduced into Australia. It is one of the most handsome of berries. Deep blood red to the centre, yellow seeds, and of good flavour. It is grown in U.S.A. as a late canning variety.

Southland

One of the most vigorous of strawberries, keeping up its growth well into the winter. Main crop to late variety. The berries are large, globose or sometimes slightly conic in shape. Bright red with a glossy surface. The berries are sweet, less acid than many varieties. This has also done well in N.Z. where it was tried last year.

Howard

This has also been known as "Premier." It is long conic in shape, fairly firm with red flesh, sub-acid, of good quality, early and with a long season. The plants make runners freely. The foliage is very vigorous and healthy. Most suitable for home use and local markets.

Adderton (656)

Early variety which gives promise of becoming a popular home garden and local market variety. Rather soft for distant shipping.

Narcissus (U.S.A., 520)

Another new variety from U.S.A. which with us has made vigorous growth and produced large crops of marketable berries.

Arlington (624)

This berry was sent to us as a new cross with only a number to it. It has done so well that we consider it worth a place. Its great value is its wonderful keeping qualities. The fruit is firm, dark red in colour, and of high quality. It is a good runner maker.

Blakemore

This berry was selected in 1927 by the head of the research laboratories of the United States National Preserves Association, and after severe tests selected as superior to all known commercial varieties for preserving. The following year it was selected as the best commercial variety in several districts. Blakemore is very vigorous and healthy, and makes runners freely. The berries are of fair size, bluntly conic, attractive, being bright light red, and colour well underneath, retaining their colour well. They are firm and carry well, being suitable for distant markets.

Douglas Special

A new seedling from Fendalcino, raised at Ryde, Vigorous grower producing a large crop of good marketable berries. This variety still shows a considerable variation of type.

Captain Cook

A vigorous grower bearing medium sized dark red berries in shape somewhat resembling Fendalcino.

Rhodes Special

This is a strawberry for a special purpose; it is so hardy that in the milder parts along the coast it puts on marketable crops right through the winter, and in the cooler parts is the first to bear in spring. It is very prolific, but should not be relied upon for late fruiting, as the berries are tender in hot weather. A good polliniser for Fendalcino.

Cresswell's Seedling

This was at one time a very popular market variety for Sydney district, but has been largely superceded by better varieties. It is still grown, however, in some localities.

Mason's Immense

A locally raised variety which has given promise as an early polliniser for Fendalcino on the lighter soils of the County of Cumberland.

Fendalcino

The most popular market berry. Its beautiful form, large size and, above all, splendid flavour, make it also a good home garden berry. It is not, however, self fertile, and must be grown with another variety in at least every third row. Under this method it is very prolific.

French's

A vigorous growing variety producing fair crop of medium quality fruit. Its main value is in its disease resistance.

Illawarra

A locally raised berry bearing very prolific crops of large red berries. The plants are sturdy and stand hot weather well. If plants are put out late a good autumn crop may be secured.

Ettersburg, 89

Most prolific of all strawberries, therefore must be grown on well enriched soil. It is the best of all berries for jam and preserves.

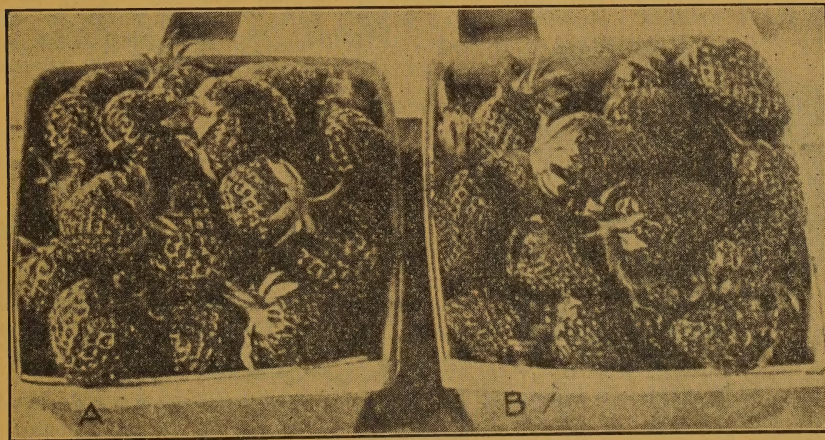

Other Varieties Also Available

Melba; Anetta; Nor J.; King Edward; Missionary.

A NEW BERRY BOOK.

Third edition revised and brought up to date and ready May, 1934.

As we are growing so many varieties of strawberry, it is not possible within the limits of a catalogue to describe them all. We would advise all our customers who care to know more about the different varieties of strawberry and their cultivation to obtain "The Australian Book of Berries," by Herbert J. Rumsey, which may be obtained, post free, for 1/1.

SOUTHLAND

BELLMAR

HOT KAPS

Hot Kaps are thin paper hoods for protecting seed and hastening germination. They are placed over a group of seeds and are later slashed, then removed as the season advances.

Hot Kaps are inexpensive and very effective and with methodical use they should more than pay their way.

Price :—11/6 per 100; £5/5/- per 1,000, freight extra. 1 dozen 1/6, postage 4d. extra.

WALNUTS and PECAN NUTS

Budded Trees, 7/6 ea.; doz., 87/-; postage or freight extra. See page 45.

There have been two very serious drawbacks to the culture of these nuts in Australia, caused by the compulsory reliance upon seedlings for the supply of trees. Seedlings take from 12 to 15 years to produce a crop, and even then they are unreliable, as so many of the walnut seedlings prove subject to bacterial blight.

Walnuts

Not recommended for coastal districts in N.S.W. and Queensland.

The new budded nuts come into bearing in from one to six years, and in moist localities subject to bacterial blight, resistant varieties may be planted.

Walnuts should be planted early June or July otherwise they may not be properly

established before hot weather starts in spring. **Wilson's Wonder; Freshford Gem, Kelvin and Franquette.** (For full descriptions refer to 1934 Annual or Nursery Catalogue.)

Pecan Nuts

Suitable for coastal as well as mountain and inland districts. .. Budded varieties take five to seven years to commence bearing. .. For full particulars and varieties see 1934 Annual or Nursery Catalogue.

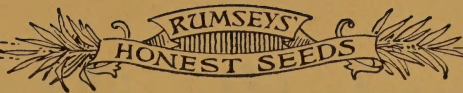

WALNUT—WILSON'S WONDER

THE NUT BOOK

Lovers of nuts should not fail to get Mr. Herbert J. Rumsey's book, "Australian Nuts and Nut-growing in Australia," which may be obtained from us or from booksellers throughout Australia for 2/-, or post paid for 2/1.

SEPARATE NURSERY CATALOGUE

This year for the first time we are listing plants other than Strawberries in a separate catalogue. Those who have a copy of our 1934 Annual Catalogue can refer to plant prices therein. We shall be pleased to send a copy of our new Nursery Catalogue post free to customers requiring same.

SHIPPING INSTRUCTIONS

Vegetable and flower seeds are carriage paid at prices quoted, unless mentioned otherwise. Trees, plants, farm seeds and sundries are carriage extra, and extra money must be remitted with order to cover freight or postage.

Rates are as follows: (Allow 1-lb. extra to cover cost of packing when assessing charges).

PARCELS POST

Scale 1 applies to parcels addressed to:
Places within a 30 mile radius
of Dundas.

Scale 2 applies to parcels addressed to:
(a) Places in New South Wales,
outside the 30 mile radius of
Dundas.
(b) The Federal Capital
Territory.
(c) Lord Howe Island and
Norfolk Island.

WEIGHT.		RATES—Scale			
		1	2	3	4
Not exceeding	1 lb. ..	s. d. 0 6	s. d. 0 9	s. d. 1 0	s. d. 1 3

"	8 lb. ..	1 6	2 0	3 6	5 0
"	11 lb. ..	1 9	2 9	5 0	7 3

Scale 3 applies to parcels addressed to: Victoria, Queensland, Tasmania, New Zealand and Fiji.

Scale 4 applies to parcels addressed to:
South Australia, Western Australia, North Australia, Central Australia, Papua, and the Territory of New Guinea.

RAIL (Passenger Train Parcels)

For all parcels over 1-lb. sent to rail towns in N.S.W. this method is much cheaper. For seeds, plants, and small lots of trees it is most efficient. Customers convenient to railway stations are asked to mention nearest station when ordering. Strawberry plants and Privet hedge seedlings are charged half rates by passenger train.

NOT EXCEEDING																				Each 28 lb. after.

RAIL (Goods Train)

This is most suitable for bulk seeds, potatoes, fertilisers, etc. Rates are the same whether prepaid or paid on delivery. Of course, where sidings are unattended prepayment is necessary and freight must be remitted with order.

C.O.D. (Cash on Delivery) SYSTEMS

WE CANNOT SEND PLANTS C.O.D. BY POST.

Postal parcels over 1-lb. may be sent and paid for at your post office. For this service the postal department charges for collection 9d. up to 10/-, 1/- up to £1, 1/3 up to 30/-, 1/6 up to £2, and 3d. for each additional £1 or part thereof. Expensive for orders under 10/-.

Passenger Train Parcels—May be sent C.O.D. to any attended platform in N.S.W. Charges are 4d. per £, with a minimum of 6d., plus ordinary passenger train freight.

Seeds By Mail

Ours is essentially a mail order business. We have for forty years been supplying seeds, plants and bulbs to customers all over Australia and the Pacific Islands.

TERMS OF BUSINESS:—

The terms on which our prices are based are cash with order. For the convenience of customers we also use the Post Office and Railway "Cash on delivery" systems, which is a little more costly than postal notes, but includes registration. For full particulars see Page 45. Plants are not sent "Cash on delivery" by post.

For cash we accept Commonwealth Bank notes in registered letters, Australian postal notes and money orders. For larger amounts, cheques or bank drafts should be used. Money orders and Postal notes should be made payable at Dundas. Please add 6d. to country, Melbourne and Brisbane cheques, and 1/- to other interstate cheques for collection charges made by the banks.

SUBSTITUTING

Sometimes owing to crop failures or shortage of stock we sell out of some varieties early in the season. In such cases we substitute the nearest variety, and send to save disappointment, but in no case do we expect you to keep the substituted article if you do not wish to do so. If you put "do not substitute" we omit the variety, and return the balance. If you return the substituted seed we give you credit for the amount.

REGISTRATION

The safety of parcels can be assured by the payment of a small registration fee of three pence for amounts up to £2, four pence to £5, six pence to £10, which should be added to amount of remittance, and especially noted on order.

PROMPTNESS

As our first principle is promptness, it is advisable to inform us if your order does not come to hand or is not acknowledged within a reasonable time.

VISITORS

Our seed and plant warehouse and trial grounds are on Adderton Road, Dundas, right at Telopea Railway Station, on the Carlingford branch line. The office, nursery, and seed store are open daily from 8 a.m. to 5 p.m., and on Saturdays 8 to 12. No business transacted on Sunday.

NO AGENTS

We have no agents for seeds or plants in any part of Australia, but in some districts we have fixing agents for the Skinner System.

PLEASE TAKE NOTICE

CONDITIONS OF SALE.—We believe that all Seeds, Bulbs and Roots sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this, we give no undertaking that such Seeds, Bulbs, or Roots will correspond with the description under which they are sold, and we make all sales subject to this condition. We further give no warranty, express or implied, as to their growth, description, quality, or productiveness, and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms they are at once to be returned to us. This non-warranty clause is not intended to cover the germination of Seeds. All seeds are tested and at time of sale comply with the conditions of "The Agricultural Seeds Act," N.S.W.

Skinner System of Irrigation

We have experienced throughout Australia during the past six years unusually good seasons so far as rainfall is concerned. It would be very optimistic to hope for a continuance of such good seasons much longer.

The best insurance against drought is a good water supply and an efficient system of distributing it. There is nothing to compare with the Skinner System in economy of operation and long life of usefulness.

One or two acres of lucerne under irrigation will provide a reserve of stock-feed for dry times. It is always possible to grow practically the whole requirements of fruit and vegetables for the home in all seasons when water is available.

In dry times vegetables are always a high price, which means a ready market in all towns for those who have them to dispose of.

The Skinner System may be worked from city water supplies or by plunger-pump from creeks, rivers or dams. Overhead supply tanks are not necessary, but homestead tanks may be filled in conjunction with watering operations.

Any handy man with tools can make up his own spray lines providing proper fittings are obtained from us and he has one of our special drilling machines. Or we can supply complete ready to erect.

The Skinner System spray lines may be fixed in permanent positions or made portable by inserting our special Quick-Acting Couplings every second joint. Lines fitted in this way may be conveniently moved by one man.

SKINNER Price List

All Prices Freight Extra.

Skinner spray lines for garden watering are made up to whatever lengths required. Complete lines ready to erect, quoted on application.

Garden Handbooks

WRITTEN BY HERBERT J. RUMSEY

The popularity of these helps to the gardener is daily increasing; many letters are received testifying to the assistance given by the books.

THE NEW A.B.C. OF VEGETABLE GROWING

FREELY ILLUSTRATED

PRICE: TWO SHILLINGS

Posted 2/1.

42nd Thousand

Entirely re-written.

This book has been the vegetable growers' dictionary and school teachers' text book for a quarter of a century. It has been kept in type and revised for each new edition and several times re-written. Men who learned their gardening from it have bought a copy for their sons and daughters.

THE AUSTRALIAN BOOK OF BERRIES

(3rd Edition)

The standard work on all small fruit culture, including :

STRAWBERRY, LOGANBERRY, RASPBERRY, GOOSEBERRY, CURRANT, &c.
Third Edition, entirely revised and brought up to date. Price: ONE SHILLING. Posted 1/1.

THE "A to Z" OF AUSTRALIAN FRUIT GROWING

Over 250 Pages.

Many Full Page Illustrations

The aim of the author has been to make this book as helpful to the fruitgrowers as the vegetable book has been to the gardener. It deals with the culture of every variety of fruit suited to Australian conditions from "A to Z," including not only cultivation, but packing, drying, preserving, and bottling. The schedule of insect pests will be found very helpful. PRICE : TWO SHILLINGS; Posted, 2/2.

THE GARDEN FAIR IN AUSTRALIA

This is a useful addition to the Garden Handbooks. It will be found to appeal to every flower and garden lover, dealing as it does with every aspect of the home surroundings. Beautifully illustrated. Even the tennis court is not omitted. Present edition is reduced to a few shop-soiled copies at 1/3 each post paid. New edition ready during 1935, 2/-. Post paid, 2/1.

THE AUSTRALIAN TOMATO BOOK

The most complete work published in Australia on this most important crop, it will be found helpful to both amateur and professional and even as a cookery book will be worth its small cost. Second edition revised and enlarged, with chapter on tomato growing under glass. 2/-, posted 2/1.

THE AUSTRALIAN NUT, AND NUT GROWING IN AUSTRALIA

This book opens up a new subject altogether, and treats at length on matters that have been too long overlooked. PRICE : 2/-; Posted, 2/1.

THE POMMIES, OR NEW CHUMS IN AUSTRALIA

The circulation of this book should in itself do a great deal towards removing the sting that unthinking persons have placed in the word "Pommy." The word has been in use for over fifty years, and only recently has there been any objection to its use. Australia has been populated and built up by the pioneering spirit of the Pommies—ourselves, our fathers, or our grandfathers. The story is interesting, and just the thing to send home. Price 1/-, posted 1/1.

We will send any of the books at the prices named or when two or more are ordered at the same time they will be sent at the published prices without the extra charges for postage.

Complete Set of Books on this Page, 1 of each for 11/-, postage paid.

HERBERT J. RUMSEY & SONS LTD., ADDERTON RD., DUNDAS, N.S.W.
